NASDAQ, the NASDAQ logos, and other brand, service or product names or marks referred to in this report are trademarks or service marks, registered or otherwise, of Nasdaq, Inc. and/or its subsidiaries. FINRA and Trade Reporting Facility are registered trademarks of FINRA.

This Quarterly Report on Form 10-Q includes market share and industry data that we obtained from industry publications and surveys, reports of governmental agencies and internal company surveys. Industry publications and surveys generally state that the information they contain has been obtained from sources believed to be reliable, but we cannot assure you that this information is accurate or complete. We have not independently verified any of the data from third-party sources nor have we ascertained the underlying economic assumptions relied upon therein. Statements as to our market position are based on the most currently available

market data. For market comparison purposes, The Nasdaq Stock Market data in this Ouarterly Report on Form 10-O for IPOs is based on data generated internally by us; therefore, the data may not be comparable to other publicly-available IPO data. Data in this Quarterly Report on Form 10-Q for new listings of equity securities on The Nasdaq Stock Market is based on data generated internally by us, which includes issuers that switched from other listing venues, closed-end funds and ETPs. Data in this Quarterly Report on Form 10-Q for IPOs and new listings of equity securities on the Nasdaq Nordic and Nasdaq Baltic exchanges and Nasdaq First North also is based on data generated internally by us. IPOs and new listings data is presented as of period end. While we are not aware of any misstatements regarding industry data presented herein, our estimates involve risks and uncertainties and are subject to change based on various factors. We refer you to the "Risk Factors" section in this Quarterly Report on Form 10-Q for the quarter ended March 31, 2022, and the "Risk Factors" section in our Form 10-K for the fiscal year ended December 31, 2021 that was filed with the SEC on February 23, 2022.

Nasdaq intends to use its website, ir.nasdaq.com, as a means for disclosing material non-public information and for complying with SEC Regulation FD and other disclosure obligations.

Forward-Looking Statements

The SEC encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. This Quarterly Report on Form 10-Q contains these types of statements. Words such as "may," "will," "could," "should," "anticipates," "envisions," "estimates," "expects," "projects," "intends," "plans," "believes" and words or terms of similar substance used in connection with any discussion of future expectations as to industry and regulatory developments or business initiatives and strategies, future operating results or financial performance, and other future developments are intended to identify forward-looking statements. These include, among others, statements relating to:

- our strategic direction;
- the integration of acquired businesses, including accounting decisions relating thereto;
- the scope, nature or impact of acquisitions, divestitures, investments, joint ventures or other transactional activities;
- the effective dates for, and expected benefits of, ongoing initiatives, including transactional activities and other strategic, restructuring, technology, de-leveraging and capital return initiatives, including our proposed stock split;
- our products and services;
- the impact of pricing changes;
- · tax matters;
- · the cost and availability of liquidity and capital;
- any litigation, or any regulatory or government investigation or action, to which we are or could become a party or which may affect us; and
- the ongoing impact of the COVID-19 pandemic on our business, operations, results of operations, financial condition and workforce.

Forward-looking statements involve risks and uncertainties. Factors that could cause actual results to differ materially from those contemplated by the forward-looking statements include, among others, the following:

- our operating results may be lower than expected;
- our ability to successfully integrate acquired businesses or divest sold businesses or assets, including the fact that any integration or transition may be more difficult, time consuming or costly than expected, and we may be unable to realize synergies from business combinations, acquisitions, divestitures or other transactional activities;
- loss of significant trading and clearing volumes or values, fees, market share, listed companies, market data customers or other customers;
- our ability to develop and grow our non-trading businesses, including our technology and analytics offerings;
- our ability to keep up with rapid technological advances and adequately address cybersecurity risks;

- economic, political and market conditions and fluctuations, including inflation, interest rate and foreign currency risk, inherent in U.S. and international operations, and geopolitical instability arising from the Russian invasion of Ukraine;
- the performance and reliability of our technology and technology of third parties on which we rely;
- any significant error in our operational processes;
- our ability to continue to generate cash and manage our indebtedness; and
- adverse changes that may occur in the litigation or regulatory areas, or in the securities markets generally, or increased regulatory oversight domestically or internationally.

Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the uncertainty and any risk related to forward-looking statements that we make. These risk factors are more fully described in the "Risk Factors" section in this Quarterly Report on Form 10-Q for the quarter ended March 31, 2022, and the "Risk Factors" section in our Form 10-K that was filed with the SEC on February 23, 2022. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. You should carefully read this entire Quarterly Report on Form 10-Q, including "Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" and the condensed consolidated financial statements and the related notes. Except as required by the federal securities laws, we undertake no obligation to update any forward-looking statement, release publicly any revisions to any forwardlooking statements or report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

Nasdaq, Inc.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. ORGANIZATION AND NATURE OF OPERATIONS

Nasdaq is a global technology company serving the capital markets and other industries. Our diverse offerings of data, analytics, software and services enable clients to optimize and execute their business vision with confidence.

We manage, operate and provide our products and services in four business segments: Market Technology, Investment Intelligence, Corporate Platforms, and Market Services.

Market Technology

Our Market Technology segment is a leading global technology solutions provider and partner to exchanges, clearing organizations, central securities depositories, regulators, banks, brokers, buy-side firms and corporate businesses. Our solutions are utilized by leading markets in the U.S., Europe and Asia as well as emerging markets in the Middle East, Latin America, and Africa. The Market Technology segment includes our Anti Financial Crime Technology business and our Marketplace Infrastructure Technology business.

Our Anti Financial Crime Technology business includes Nasdaq Trade Surveillance, a SaaS solution designed for brokers and other market participants, and Market Surveillance, a solution for market infrastructure operators. Both solutions are designed to assist in complying with market rules, regulations and internal market surveillance policies. In February 2021, we completed the acquisition of Verafin, a SaaS technology provider of anti-financial crime management solutions that offers a cloud-based platform to help detect, investigate, and report money laundering and fraud. Verafin also has targeted sanctions screening solutions that help banks manage Russian sanctions and is further expanding this product to detect new means of evasion-based typologies. Additionally, beginning in the first quarter of 2022, we reclassified Nasdaq Risk Platform revenues from Anti Financial Crime Technology to Marketplace Infrastructure Technology. Total Market Technology segment revenues were unchanged.

Our Marketplace Infrastructure Technology business powers over 130 market infrastructure operators and new market clients in more than 55 countries and handles a wide array of assets, including but not limited to cash equities, equity derivatives, currencies, various interest-bearing securities, commodities, energy products and digital currencies. Our solutions can also be used in the creation of new asset classes, and non-capital markets customers, including those in insurance liabilities securitization, cryptocurrencies and sports wagering.

Investment Intelligence

Our Investment Intelligence segment includes our Market Data, Index and Analytics businesses.

Our Market Data business sells and distributes historical and real-time market data to the sell-side, the institutional investing community, retail online brokers, proprietary trading shops, other venues, internet portals and data distributors. Our market data products can enhance transparency of market activity within our exchanges and provide critical information to professional and non-professional investors globally. Additionally, our Nasdaq Cloud Data Service provided on our Data Link data dissemination platform provides a flexible and efficient method of delivery for real-time exchange data and other financial information.

Our Index business develops and licenses Nasdaq-branded indexes and financial products. We also license cash-settled options, futures and options on futures on our indexes. As of March 31, 2022, 368 ETPs listed on 28 exchanges in over 20 countries tracked a Nasdaq index and accounted for \$401 billion in AUM.

Our Analytics business provides asset managers, investment consultants and institutional asset owners with information and analytics to make datadriven investment decisions and deploy their resources more productively. We also provide liquidity solutions for private funds. Through our eVestment and Solovis solutions, we provide a suite of cloud-based solutions that help institutional investors and consultants conduct preinvestment due diligence, and monitor their portfolios post-investment. The eVestment platform also enables asset managers to efficiently distribute information about their firms and funds to asset owners and consultants worldwide. Through the Solovis platform, endowments, foundations, pensions and family offices transform how they collect and aggregate investment data, analyze portfolio performance, model and predict future outcomes, and share meaningful portfolio insights with key stakeholders. The Nasdaq Fund Network and Nasdaq Data Link are additional platforms in our suite of investment data analytics offerings and data management tools. Nasdaq Data Link strengthens our position as a leading source for financial, economic, and alternative datasets. For investment management firms, investment banks and other investors, the platform powers data-driven decision-making for users across the globe via universal application programming interfaces, and provides for highly efficient data discovery and delivery.

Corporate Platforms

Our Corporate Platforms segment includes our Listing Services and IR & ESG Services businesses. These businesses deliver critical capital market and ESG solutions across the lifecycle of public and private companies.

Our Listing Services business includes our U.S. and European Listing Services businesses. We operate a variety of listing platforms around the world to provide multiple global capital raising solutions for public companies. Our main listing markets are The Nasdaq Stock Market and the Nasdaq Nordic and Nasdaq Baltic exchanges. Through Nasdaq First North, our Nordic and Baltic operations also offer alternative marketplaces for smaller companies and growth companies. In July 2021, we contributed our NPM business, which was included in our Listing Services business, to a standalone, independent company, of which we own the largest minority interest, together with a consortium of third party financial institutions. The NPM business provides liquidity solutions for private companies to enable employees, investors, and companies to execute transactions.

As of March 31, 2022, there were 4,242 total listings on The Nasdaq Stock Market, including 447 ETPs. The combined market capitalization was approximately \$25.7 trillion. In Europe, the Nasdaq Nordic and Nasdaq Baltic exchanges, together with Nasdaq First North, were home to 1,244 listed companies with a combined market capitalization of approximately \$2.2 trillion.

We also operate a U.S. Corporate Bond exchange for the listing of corporate bonds. This exchange operates pursuant to The Nasdaq Stock Market exchange license and is powered by the NFF. As of March 31, 2022, 105 corporate bonds were listed on the Corporate Bond exchange. We continue to develop the Nasdaq Sustainable Bond Network, a platform for increased transparency in the global sustainable bond markets.

Our IR & ESG Services include our portfolio of products and services that support corporations' investor relations and ESG functions. Our clients include both public and private companies and organizations. Our public company clients can be companies listed on our exchanges or other U.S. and global exchanges. Our private company clients include a diverse group of organizations ranging from family owned companies, government organizations, law firms, privately held entities, various non-profit organizations to hospitals and health care systems. We help organizations enhance their ability to understand and expand their global shareholder base, improve corporate governance, and navigate the evolving ESG landscape through our suite of advanced technology, analytics, reporting and consultative services.

Market Services

Our Market Services segment includes our Equity Derivative Trading and Clearing, Cash Equity Trading, FICC and Trade Management Services businesses. We operate multiple exchanges and other marketplace facilities across several asset classes, including derivatives, commodities, cash equity, debt, structured products and ETPs. In addition, in certain countries where we operate exchanges, we also provide broker services, clearing, settlement and central depository services. In January 2020, we commenced an orderly wind-down of our Nordic broker services operations business. We expect this wind-down to continue through the second quarter of 2022. In June 2021, we completed the acquisition of a majority stake in Puro.earth, a Finnish-based leading marketplace for carbon removal.

Our transaction-based platforms provide market participants with the ability to access, process, display and integrate orders and quotes. The platforms allow the routing and execution of buy and sell orders as well as the reporting of transactions, providing fee-based revenues.

In the U.S., we operate six options exchanges and three cash equity exchanges. The Nasdaq Stock Market, the largest of our cash equities exchanges, is the largest single venue of liquidity for trading U.S.-listed cash equities.

In Canada, we operate an exchange with three independent markets for the trading of Canadian-listed securities: Nasdaq Canada CXC, Nasdaq Canada CX2 and Nasdaq Canada CXD.

In Europe, we operate exchanges in Stockholm (Sweden), Copenhagen (Denmark), Helsinki (Finland), and Reykjavik (Iceland), as well as the clearing operations of Nasdaq Clearing, as Nasdaq Nordic. We also operate exchanges in Tallinn (Estonia), Riga (Latvia) and Vilnius (Lithuania) as Nasdaq Baltic. Collectively, Nasdaq Nordic and Nasdaq Baltic offer trading in cash equities, depository receipts, warrants, convertibles, rights, fund units and ETFs, as well as trading and clearing of derivatives and clearing of resale and repurchase agreements.

Nasdaq Fixed Income provides a wide range of products and services, such as trading and clearing, for fixed income products in Sweden, Denmark, Finland, Iceland, Estonia, Lithuania and Latvia.

Nasdaq Commodities is the brand name for Nasdaq's European commodity-related products and services. Nasdaq Commodities' offerings include derivatives in power, natural gas and carbon emission markets, seafood, electricity certificates and clearing services. These products are listed on Nasdaq Oslo ASA, except for seafood, which is listed on Fishpool, a third party platform.

In June 2021, we sold our U.S. Fixed Income business, which included an electronic platform for the trading of U.S. Treasuries. See "2021 Divestiture" of Note 4, "Acquisition and Divestiture," for further discussion

Through our Trade Management Services business, we provide market participants with a wide variety of alternatives for connecting to and accessing our markets. Our marketplaces may be accessed via a number of different protocols used for quoting, order entry, trade reporting, and connectivity to various data feeds. In 2021, we launched WorkX, an upgraded version of Nasdaq Workstation, a browser-based, front-end interface that allows market participants to view data and enter orders, quotes and trade reports. WorkX enables a seamless workflow and enhanced trade intelligence. All current Workstation users are expected to migrate to WorkX by the end of 2022. In addition, we offer a variety of add-on compliance tools to help firms comply with regulatory requirements.

We provide colocation services to market participants, whereby we offer firms cabinet space and power to house their own equipment and servers within our data centers. Additionally, we offer a number of wireless connectivity offerings between select data centers using millimeter wave and microwave technology.

2. BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements are prepared in accordance with U.S. GAAP and include the accounts of Nasdaq, its wholly-owned subsidiaries and other entities in which Nasdaq has a controlling financial interest. When we do not have a controlling interest in an entity, but exercise significant influence over the entity's operating and financial policies, such investment is accounted for under the equity method of accounting. We recognize our share of earnings or losses of an equity method investee based on our ownership percentage. See "Equity Method Investments," of Note 6, "Investments," for further discussion of our equity method investments.

The accompanying condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results. These adjustments are of a normal recurring nature. All significant intercompany accounts and transactions have been eliminated in consolidation.

As permitted under U.S. GAAP, certain footnotes or other financial information can be condensed or omitted in the interim condensed consolidated financial statements. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the consolidated financial statements and accompanying notes included in Nasdaq's Form 10-K. The year-end condensed balance sheet data was derived from the audited financial statements, but does not include all disclosures required by U.S. GAAP.

Certain prior year amounts have been reclassified to conform to the current year presentation. During the fourth quarter of 2021, we adjusted the presentation of cash and cash equivalents held within default funds and margin deposits on the condensed consolidated statement of cash flows from operating activities, to present them as restricted cash and cash equivalents with the associated changes being included within cash flows from investing and financing activities. These balances cannot be used to satisfy operating or other liabilities. See Note 14, "Clearing Operations," for further discussion of the default funds and margin deposits.

Prior period amounts have also been adjusted to conform to current period presentation. This immaterial adjustment had no impact on our previously reported condensed consolidated balance sheets, condensed consolidated statements of income, or condensed consolidated statements of comprehensive income.

Three Months Ended March 31, 2021

	Three Months Ended March 31, 2021					
	As Reported	<u>Adjustment</u>	Adjusted			
		(in millions)				
Net cash provided by operating activities	\$ 394 5	- \$	394			
Net cash used in investing activities	(2,505)	(195)	(2,700)			
Net cash provided by financing activities	152	12	164			
Effect of exchange rate changes on cash, cash equivalents, restricted cash and cash equivalents	(11)	(166)	(177)			
Net decrease in cash, cash equivalents, restricted cash and cash equivalents	(1,970)	(349)	(2,319)			
Cash, cash equivalents, restricted cash and cash equivalents at beginning of period	2,782	3,197	5,979			
Cash, cash equivalents, restricted cash and cash equivalents at end of period	\$ 812.5	\$ 2,848 \$	3,660

Restricted cash and cash equivalents	38	_	38			
Restricted cash and cash equivalents (Default funds and margin deposits)	_	2,848	2,848			
Total	\$ 812.5	\$ 2,848 \$	3,660			

Accounting Estimates

In preparing our condensed consolidated financial statements, we make assumptions, judgments and estimates that can have a significant impact on our revenue, operating income and net income, as well as on the value of certain assets and liabilities in our condensed consolidated balance sheets. At least quarterly, we evaluate our assumptions, judgments and estimates, and make changes as deemed necessary.

Subsequent Events

We have evaluated subsequent events through the issuance date of this Quarterly Report on Form 10-Q. For discussion of the redemption of the 2024 Notes, see "Early Extinguishment of 2024 Notes," of Note 8, "Debt Obligations." For discussion on our proposed 3-for-1 stock split in the form of a stock dividend, see "Proposed Stock Split," of Note 11, "Nasdaq Stockholders' Equity."

3. REVENUE FROM CONTRACTS WITH CUSTOMERS

Disaggregation of Revenue

The following tables summarize the disaggregation of revenue by major product and service and by segment for the three months ended March 31, 2022 and 2021:

	Three Months Ended March 31,				
	2022 2021				
		(in m	illions)		
Market Technology					
Anti Financial Crime Technology	\$	72	\$	42	
Marketplace Infrastructure Technology		52		58	
Investment Intelligence					
Market data		108		106	
Index		122		102	
Analytics		54		48	
Corporate Platforms					
Listing services		107		89	
IR & ESG Services		61		57	
Market Services					
Transaction-based trading and clearing,					
net		231		255	
Trade management services		84		79	
Other revenues	1 1				
Revenues less transaction-based expenses	\$ 892 \$ 8			851	

Substantially all revenues from the Market Technology, Investment Intelligence and Corporate Platforms segments were recognized over time for the three months ended March 31, 2022 and 2021. For the three months ended March 31, 2022 and 2021 approximately 70.5% and 73.2%, respectively, of Market Services revenues were recognized at a point in time and 29.5% and 26.8%, respectively, were recognized over time.

Contract Balances

Substantially all of our revenues are considered to be revenues from contracts with customers. The related accounts receivable balances are recorded in our Condensed Consolidated Balance Sheets as receivables, which are net of allowance for doubtful accounts of \$19 million as of March 31, 2022 and \$17 million as of December 31, 2021. The changes in the balance between periods were immaterial. We do not have obligations for warranties, returns or refunds to customers.

For the majority of our contracts with customers, except for our marketplace infrastructure technology and listings services contracts, our performance obligations range from three months to three years and there is no significant variable consideration.

Deferred revenue is the only significant contract asset or liability as of March 31, 2022. Deferred revenue represents consideration received that is yet to be recognized as revenue for unsatisfied performance obligations. Deferred revenue primarily represents our contract liabilities related to our fees for Market Technology, Investment Intelligence, Annual and Initial Listings, and IR & ESG Services contracts. See Note 7, "Deferred Revenue," for our discussion on deferred revenue balances, activity, and expected timing of recognition.

We do not have a material amount of revenue recognized from performance obligations that were satisfied in prior periods. We do not provide disclosures about transaction price allocated to unsatisfied performance obligations if contract durations are less than one year. For our initial listings the transaction price allocated to remaining performance obligations is included in deferred revenue. For our Market Technology, Analytics, and IR & ESG contracts, the portion of transaction price allocated to unsatisfied performance obligations is presented in the table below. To the extent consideration has been received, unsatisfied performance obligations would be included in the table below as well as deferred revenue.

The following table summarizes the amount of the transaction price allocated to performance obligations that are unsatisfied, for contract durations greater than one year, as of March 31, 2022:

	Market chnology	A	Analytics		& ESG ervices	Total
			(in mil	lions)		
Remainder of 2022	\$ 404	\$	49	\$	47	\$ 500
2023	397		46		38	481
2024	194		22		12	228
2025	118		8		1	127
2026	72		7		_	79
2027+	79		4		_	83
Total	\$ 1,264	\$	136	\$	98	\$ 1,498

4. ACQUISITION AND DIVESTITURE

We completed the following divestiture and acquisition in 2021. Financial results of each transaction are included in our condensed consolidated financial statements from the date of each acquisition.

2021 Divestiture

In June 2021, we sold our U.S. Fixed Income business, which was part of our FICC business within our Market Services segment, to Tradeweb Markets Inc. We recognized a pre-tax gain on the sale of \$84 million, net of disposal costs. The pre-tax gain was included in net gain on divestiture of businesses in the Condensed Consolidated Statements of Income.

In connection with this sale, we issued approximately 6.2 million shares of Nasdaq common stock. Nasdaq used the proceeds from the sale, available tax benefits and working and clearing capital of this business, as well as other sources of cash, to repurchase shares of Nasdaq common stock to reduce the impact on earnings per share dilution from the sale.

To facilitate these repurchases, in June 2021, the board of directors authorized an increase to the share repurchase program. See "Share Repurchase Program," of Note 11, "Nasdaq Stockholders' Equity," for further discussion.

2021 Acquisition

Acquisition of Verafin

In February 2021, we completed the acquisition of Verafin, a SaaS technology provider of anti-financial crime management solutions that provides a cloud-based platform to help detect, investigate, and report money laundering and fraud, for an aggregate purchase price of \$2.75 billion, subject to certain adjustments. The \$2.75 billion purchase price includes a cash payment of \$102 million, reflected in cash from operating activities in our Condensed Consolidated Statements of Cash Flows, the release of which is subject to certain employment-related conditions over three years following the closing of the transaction. This payment was recorded as a prepaid expense and is recorded in other current and non-current assets in our Condensed Consolidated Balance Sheets and will be amortized to merger and strategic initiatives expense on a straight-line basis over a three-year period. Verafin is part of our Market Technology segment.

The amounts in the table below represent the final allocation of the purchase price. The allocation of the purchase price was subject to revision during the measurement period, a period not to exceed 12 months from the acquisition date. Adjustments to the provisional values, which may include tax and other estimates, during the measurement period are recorded in the reporting period in which the adjustment amounts are determined. In 2021, we recorded a measurement period adjustment of \$9 million. This adjustment resulted in an increase to both total net liabilities acquired and goodwill. This adjustment did not result in an impact to our Condensed Consolidated Statements of Income. The allocation of the purchase price for Verafin was finalized in the first quarter of 2022.

	(in	millions)
Goodwill	\$	1,882
Acquired Intangible Assets		815
Total Net Liabilities Acquired		(46)
Purchase Consideration	\$	2,651

Intangible Assets

The following table presents the details of acquired intangible assets for Verafin at the date of acquisition. Acquired intangible assets with finite lives are amortized using the straight-line method.

	Customer Relationships		Technology		Trade <u>Name</u>	To	otal Acquired Intangible <u>Assets</u>
Intangible asset value (in millions)	\$ 532	\$	246	\$	37	\$	815
Discount rate used	7.5	%	7.5	%	7.5	%	
Estimated average useful life	22 yea	ırs	7 ye	ars	20 yea	ırs	

Customer Relationships

Customer relationships represent the non-contractual and contractual relationships with customers.

Methodology

Customer relationships were valued using the income approach, specifically an excess earnings method. The excess earnings method examines the economic returns contributed by the identified tangible and intangible assets of a company, and then isolates the excess return that is attributable to the intangible asset being valued.

Discount Rate

The discount rate used reflects the amount of risk associated with the hypothetical cash flows for the customer relationships relative to the overall business. In developing a discount rate for the customer relationships, we estimated a weighted-average cost of capital for the overall business and we utilized this rate as an input when discounting the cash flows. The resulting discounted cash flows were then tax-effected at the applicable statutory rate.

For our acquisition of Verafin, a discounted tax amortization benefit was added to the fair value of the assets under the assumption that the customer relationships would be amortized for tax purposes over a period of 20 years

Estimated Useful Life

We estimate the useful life based on the historical behavior of the customers and a parallel analysis of the customers using the excess earnings method.

Technology

As part of our acquisition of Verafin, we acquired developed technology.

Methodology

The developed technology was valued using the income approach, specifically the relief-from-royalty method, or RFRM. The RFRM is used to estimate the cost savings that accrue to the owner of an intangible asset who would otherwise have to pay royalties or license fees on revenues earned through the use of the asset. The royalty rate is applied to the projected revenue over the expected remaining life of the intangible asset to estimate royalty savings. The net after-tax royalty savings are calculated for each year in the remaining economic life of the technology and discounted to present value.

Discount Rate

The discount rates used reflect the amount of risk associated with the hypothetical cash flows for the developed technology relative to the overall business as discussed above in "Customer Relationships."

Estimated Useful Life

We have estimated the useful life of the Verafin technology to be 7 years.

Trade Name

As part of our acquisition of Verafin, we acquired a trade name. The trade name is recognized in the industry and carries a reputation for quality. As such, the reputation and positive recognition embodied in the trade name is a valuable asset to Nasdaq.

Methodology

The Verafin trade name was valued using the income approach, specifically the RFRM as discussed above in "Technology."

Discount Rate

The discount rate used reflects the amount of risk associated with the hypothetical cash flows for the trade name relative to the overall business as discussed above in "Customer Relationships."

Estimated Useful Life

We have estimated the useful life of the Verafin trade name to be 20 years and our intention is to continue to use it in the branding of products.

Pro Forma Results and Acquisition-Related Costs

The condensed consolidated financial statements for the three months ended March 31, 2022 and 2021 include the financial results of the above acquisition from the date of the acquisition. Pro forma financial results have not been presented since this acquisition was not material to our financial results.

Acquisition-related costs for the transactions described above were expensed as incurred and are included in merger and strategic initiatives expense in the Condensed Consolidated Statements of Income.

5. GOODWILL AND ACQUIRED INTANGIBLE ASSETS

Goodwill

The following table presents the changes in goodwill by business segment during the three months ended March 31, 2022:

	(i	n millions)
Market Technology		·
Balance at December 31, 2021	\$	2,171
Foreign currency translation adjustments		(5)
Balance at March 31, 2022	\$	2,166
Investment Intelligence		
Balance at December 31, 2021	\$	2,428
Foreign currency translation adjustments		(35)
Balance at March 31, 2022	\$	2,393
Corporate Platforms	-	
Balance at December 31, 2021	\$	469
Foreign currency translation adjustments		(6)
Balance at March 31, 2022	\$	463
Market Services		
Balance at December 31, 2021	\$	3,365
Foreign currency translation adjustments		(49)
Balance at March 31, 2022	\$	3,316
	-	
<u>Total</u>		
Balance at December 31, 2021	\$	8,433
Foreign currency translation adjustments		(95)
Balance at March 31, 2022	\$	8,338

Goodwill represents the excess of purchase price over the value assigned to the net assets, including identifiable intangible assets, of a business acquired. Goodwill is allocated to our reporting units based on the assignment of the fair values of each reporting unit of the acquired company. We test goodwill for impairment at the reporting unit level annually, or in interim periods if certain events occur indicating that the carrying amount may be impaired, such as changes in the business climate, poor indicators of operating performance or the sale or disposition of a significant portion of a reporting unit. There was no impairment of goodwill for the three months ended March 31, 2022 and 2021; however, events such as prolonged economic weakness or unexpected significant declines in operating results of any of our reporting units or businesses, may result in goodwill impairment charges in the future.

Acquired Intangible Assets

The following table presents details of our total acquired intangible assets, both finite- and indefinite-lived:

	March 31, 2022	De	ecember 31, 2021
Finite-Lived Intangible Assets	(in m	llion	is)
Gross Amount			
Technology	\$ 294	\$	295
Customer relationships	2,050		2,050
Trade names and other	60		60
Foreign currency translation adjustment	(156)		(143)
Total gross amount	\$ 2,248	\$	2,262
Accumulated Amortization			
Technology	\$ (64)	\$	(54)
Customer relationships	(740)		(711)
Trade names and other	(12)		(11)
Foreign currency translation adjustment	88		81
Total accumulated amortization	\$ (728)	\$	(695)
Net Amount			
Technology	\$ 230	\$	241
Customer relationships	1,310		1,339
Trade names and other	48		49
Foreign currency translation adjustment	(68)		(62)
Total finite-lived intangible assets	\$ 1,520	\$	1,567
Indefinite-Lived Intangible Assets			
Exchange and clearing registrations	\$ 1,257	\$	1,257
Trade names	121		121
Licenses	52		52
Foreign currency translation adjustment	(199)		(184)
Total indefinite-lived intangible assets	\$ 1,231	\$	1,246
Total intangible assets, net	\$ 2,751	\$	2,813

There was no impairment of indefinite-lived intangible assets for the three months ended March 31, 2022 and 2021.

The following table presents our amortization expense for acquired finite-lived intangible assets:

	Three Months Ended March 31,					
	 2022 2021					
	 (in millions)					
Amortization expense	\$ 40	\$		36		

The increase in amortization expense for the three months ended March 31, 2022 compared with the same period in 2021 was primarily due to additional amortization expense for acquired intangible assets related to our acquisition of Verafin. These amounts are included in depreciation and amortization expense in the Condensed Consolidated Statements of Income.

The table below presents the estimated future amortization expense (excluding the impact of foreign currency translation adjustments of \$68 million as of March 31, 2022) of acquired finite-lived intangible assets as of March 31, 2022:

	(in	millions)
Remainder of 2022	\$	120
2023		157
2024		152
2025		149
2026		147
2027+		863
Total	\$	1,588

6. INVESTMENTS

The following table presents the details of our investments:

	March 31, 2022	D	ecember 31, 2021
	 (in mi	llions)	
Financial investments	\$ 225	\$	208
Equity method investments	\$ 369	\$	363
Equity securities	\$ 67	\$	67

Financial Investments

Financial investments are comprised of trading securities, primarily highly rated European government debt securities, of which \$155 million as of March 31, 2022 and \$162 million as of December 31, 2021, are assets primarily utilized to meet regulatory capital requirements, mainly for our clearing operations at Nasdaq Clearing.

Equity Method Investments

We record our estimated pro-rata share of earnings or losses each reporting period and record any dividends as a reduction in the investment balance. As of March 31, 2022 and 2021, our equity method investments primarily included our 40.0% equity interest in OCC.

The carrying amounts of our equity method investments are included in other non-current assets in the Condensed Consolidated Balance Sheets. No material impairments were recorded for the three months end March 31, 2022 and 2021.

Net income recognized from our equity interest in the earnings and losses of these equity method investments, primarily OCC, was \$7 million for the three months ended March 31, 2022 and \$57 million for the three months ended March 31, 2021. For the three months ended March 31, 2022, lower equity interest in the earnings of OCC as compared to 2021 was primarily driven by a reduction in the clearing fee rate that OCC charges its customers.

Equity Securities

The carrying amounts of our equity securities are included in other noncurrent assets in the Condensed Consolidated Balance Sheets. We elected the measurement alternative for substantially all of our equity securities as they do not have a readily determinable fair value. No material adjustments were made to the carrying value of our equity securities for the three months ended March 31, 2022 and 2021. As of March 31, 2022 and December 31, 2021, our equity securities primarily represent various strategic investments made through our corporate venture program as well as investments acquired through various acquisitions.

7. DEFERRED REVENUE

Deferred revenue represents consideration received that is yet to be recognized as revenue. The changes in our deferred revenue during the three months ended March 31, 2022 are reflected in the following table:

		lance at ber 31, <u>2021</u> <u>Addi</u>	tions	Revenue Recognized	Adjustments	Balance at March 31, <u>2022</u>
				(in millions)		
Market Technology	\$	117 \$	53 \$	5 (57) \$	(2)	\$ 111
Investment Intelligence		106	61	(41)	_	126
Corporate Platf	orms:					
Initial Listing		145	16	(19)	(1)	141
Annual Listings		2	267	_	1	270
IR & ESG Services		57	30	(24)	_	63
Other		21	8	(4)	(1)	24
Total	\$	448 \$	435 \$	(145) \$	(3)	\$ 735

In the preceding table:

- Revenue recognized includes revenue recognized during the current period that was included in the beginning balance.
- Adjustments reflect foreign currency translation adjustments.
- Other primarily includes deferred revenue from non-U.S. listing of additional shares fees. Listing of additional shares fees are included in our Listing Services business.

As of March 31, 2022, we estimate that our deferred revenue will be recognized in the following years:

Fiscal year ended:		2022	2023	<u>2024</u>		2025		2026	<u>2027+</u>	Total
					(ir	million	s)			
Market Technology	\$	101	\$ 8	\$ 1	\$	1	\$	— \$	— \$	111
Investment Intelligence		115	11	_		_		_	_	126
Corporate Platf	orm	s:								
Initial Listings		37	37	27		18		15	7	141
Annual Listings		270	_	_		_		_	_	270
IR & ESG Services		60	3	_		_		_	_	63
Other		11	6	5		2		_	_	24
Total	\$	594	\$ 65	\$ 33	\$	21	\$	15 \$	7 \$	735

In the above table, 2022 represents the remaining nine months of 2022.

The timing of recognition of deferred revenue related to certain marketplace infrastructure technology contracts is primarily dependent upon the completion of customization and any significant modifications made pursuant to existing market technology contracts. As such, as it relates to market technology revenues, the timing represents our best estimate.

8. DEBT OBLIGATIONS

The following table presents the changes in the carrying amount of our debt obligations during the three months ended March 31, 2022:

	De	cember 31, 2021	Δ	Additions	Tra	Payments, Foreign Currency nslation and Accretion	м	arch 31, 2022
	-	2021			millio		.,,	aren 51, 2022
Short-term debt - commercial		120	Ф	1.250	Ф	(1 (70)	Φ	
paper	\$	420	\$	1,250	\$	(1,670)	\$	
2022 Notes		598				1		599
2024 Notes		499						499
Total short-term debt	\$	1,517	\$	1,250	\$	(1,669)	\$	1,098
Long-term debt - senior unsecured notes								
2026 Notes		498		_		_		498
2029 Notes		676		_		(18)		658
2030 Notes		676		_		(18)		658
2050 Notes		486		_		<u> </u>		486
2031 Notes		643		_		_		643
2040 Notes		644		_		_		644
2033 Notes		694		_		(19)		675
2052 Notes		_		541				541
2020 Credit Facility		(4)		_		1		(3)
Total long-term debt	\$	4,313	\$	541	\$	(54)	\$	4,800
Total debt obligations	\$	5,830	\$	1,791	\$	(1,723)	\$	5,898

In the table above, the 2024 Notes were reclassified to short-term debt as of March 31, 2022.

The long-term debt senior unsecured notes in the table above, and discussion below, are listed based on their issuance date.

Commercial Paper Program

Our U.S. dollar commercial paper program is supported by our 2020 Credit Facility which provides liquidity support for the repayment of commercial paper issued through this program. See "2020 Credit Facility" below for further discussion. The effective interest rate of commercial paper issuances fluctuates as short term interest rates and demand fluctuate. The fluctuation of these rates may impact our interest expense.

In January 2022, we issued commercial paper to partially fund our ASR agreement. See "ASR Agreement," of Note 11, "Nasdaq Stockholders' Equity." As of March 31, 2022, we had no outstanding borrowing under our commercial paper program.

Senior Unsecured Notes

Our 2022 and 2040 Notes were issued at par. All of our other outstanding senior unsecured notes were issued at a discount. As a result of the discount, the proceeds received from each issuance were less than the aggregate principal amount. As of March 31, 2022, the amounts in the table above reflect the aggregate principal amount, less the unamortized debt discount and the unamortized debt issuance costs, which are being accreted through interest expense over the life of the applicable notes. For our Euro denominated notes, the "Payments, Foreign Currency Translation and Accretion" column also includes the impact of foreign currency translation. Our senior unsecured notes are general unsecured obligations which rank equally with all of our existing and future unsubordinated obligations and are not guaranteed by any of our subsidiaries. The senior unsecured notes were issued under indentures that, among other things, limit our ability to consolidate, merge or sell all or substantially all of our assets, create liens, and enter into sale and leaseback transactions. The senior unsecured notes may be redeemed by Nasdaq at any time, subject to a make-whole amount.

Upon a change of control triggering event (as defined in the various supplemental indentures governing the applicable notes), the terms require us to repurchase all or part of each holder's notes for cash equal to 101% of the aggregate principal amount purchased plus accrued and unpaid interest, if any.

Early Extinguishment of 2024 Notes

In May 2014, Nasdaq issued the 2024 Notes, which paid interest semiannually at a rate of 4.25% per annum. In April 2022, we primarily used the net proceeds from the 2052 Notes to repay in full and redeem our 2024 Notes. For further discussion see "2052 Notes" below. In connection with the early extinguishment of the 2024 Notes, in April 2022 we recorded a pre-tax charge of \$16 million, which primarily includes a makewhole redemption price premium.

2026 Notes

In June 2016, Nasdaq issued the 2026 Notes, which pay interest semiannually at a rate of 3.85% per annum until June 30, 2026. Such interest rate may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 5.85%.

2029 Notes

In April 2019, Nasdaq issued the 2029 Notes, which pay interest annually at a rate of 1.75% per annum until March 28, 2029. Such interest rate may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 3.75%.

The 2029 Notes have been designated as a hedge of our net investment in certain foreign subsidiaries to mitigate the foreign exchange risk associated with certain investments in these subsidiaries. The decrease in the carrying amount of \$18 million noted in the "Payments, Foreign Currency Translation and Accretion" column in the table above primarily reflects the remeasurement of the 2029 Notes into U.S. dollars and is recorded in accumulated other comprehensive loss within Nasdaq's stockholders' equity in the Condensed Consolidated Balance Sheets as of March 31, 2022.

2030 Notes

In February 2020, Nasdaq issued the 2030 Notes. The 2030 Notes pay interest annually in arrears, which began on February 13, 2021.

The 2030 Notes were designated as a hedge of our net investment in certain foreign subsidiaries to mitigate the foreign exchange risk associated with certain investments in these subsidiaries. The decrease in the carrying amount of \$18 million noted in the "Payments, Foreign Currency Translation and Accretion" column in the table above primarily reflects the remeasurement of the 2030 Notes into U.S. dollars and is recorded in accumulated other comprehensive loss within Nasdaq's stockholders' equity in the Condensed Consolidated Balance Sheets as of March 31, 2022.

2050 Notes

In April 2020, Nasdaq issued the 2050 Notes, which pay interest semiannually at a rate of 3.25% per annum until April 28, 2050. Such rate may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 5.25%.

2022, 2031 and 2040 Notes

In December 2020, Nasdaq issued the 2022, 2031 and 2040 Notes. The net proceeds were used to partially fund the acquisition of Verafin. For further discussion of the acquisition of Verafin, see "2021 Acquisition," of Note 4, "Acquisition and Divestiture."

2022 Notes

The 2022 Notes pay interest semi-annually in arrears, which began on June 21, 2021. The interest rate of 0.445% may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 2.445%.

2031 Notes

The 2031 Notes pay interest semi-annually in arrears, which began on January 15, 2021. The interest rate of 1.650% may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 3.65%.

2040 Notes

The 2040 Notes pay interest semi-annually in arrears, which began on June 21, 2021. The interest rate of 2.500% may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 4.50%.

2033 Notes

In July 2021, Nasdaq issued the 2033 Notes. The 2033 Notes pay interest annually in arrears, beginning on July 30, 2022.

The 2033 Notes have been designated as a hedge of our net investment in certain foreign subsidiaries to mitigate the foreign exchange risk associated with certain investments in these subsidiaries. The decrease in the carrying amount of \$19 million noted in the "Payments, Foreign Currency Translation and Accretion" column in the table above primarily reflects the remeasurement of the 2033 Notes into U.S. dollars and is recorded in accumulated other comprehensive loss within Nasdaq stockholders' equity in the Condensed Consolidated Balance Sheets as of March 31, 2022.

2052 Notes

In March 2022, Nasdaq issued \$550 million aggregate principal amount of 3.950% senior notes due in 2052, which pay interest semi-annually in arrears, beginning on September 7, 2022. The interest rate of 3.950% may vary with Nasdaq's debt rating, to the extent Nasdaq is downgraded below investment grade, up to a rate not to exceed 5.950%. The net proceeds from the 2052 Notes were approximately \$541 million after deducting the underwriting discount and expenses of the offering. We used the net proceeds from the 2052 Notes to redeem all of the 2024 Notes in April 2022

Credit Facilities

2020 Credit Facility

In December 2020, Nasdaq entered into the 2020 Credit Facility, which replaced a former credit facility and consists of a \$1.25 billion five-year revolving credit facility (with sublimits for non-dollar borrowings, swingline borrowings and letters of credit). Nasdaq intends to use funds available under the 2020 Credit Facility for general corporate purposes and to provide liquidity support for the repayment of commercial paper issued through the commercial paper program. Nasdaq is permitted to repay borrowings under our 2020 Credit Facility at any time in whole or in part, without penalty.

As of March 31, 2022, no amounts were outstanding on the 2020 Credit Facility. The \$(3) million balance represents unamortized debt issuance costs which are being accreted through interest expense over the life of the credit facility.

Borrowings under the revolving credit facility and swingline borrowings bear interest on the principal amount outstanding at a variable interest rate based on either the LIBOR (or a successor rate to LIBOR), the base rate (as defined in the credit agreement), or other applicable rate with respect to non-dollar borrowings, plus an applicable margin that varies with Nasdaq's debt rating. We are charged commitment fees of 0.125% to 0.350%, depending on our credit rating, whether or not amounts have been borrowed. These commitment fees are included in interest expense and were not material for the three months ended March 31, 2022 and 2021.

The 2020 Credit Facility contains financial and operating covenants. Financial covenants include a maximum leverage ratio. Operating covenants include, among other things, limitations on Nasdaq's ability to incur additional indebtedness, grant liens on assets, dispose of assets and make certain restricted payments. The facility also contains customary affirmative covenants, including access to financial statements, notice of defaults and certain other material events, maintenance of properties and insurance, and customary events of default, including cross-defaults to our material indebtedness.

The 2020 Credit Facility includes an option for Nasdaq to increase the available aggregate amount by up to \$625 million, subject to the consent of the lenders funding the increase and certain other conditions.

Other Credit Facilities

Certain of our European subsidiaries have several other credit facilities, which are available in multiple currencies, primarily to support our Nasdaq Clearing operations in Europe, as well as to provide a cash pool credit line for one subsidiary. These credit facilities, in aggregate, totaled \$204 million as of March 31, 2022 and \$212 million as of December 31, 2021 in available liquidity, none of which was utilized. Generally, these facilities each have a one year term. The amounts borrowed under these various credit facilities bear interest on the principal amount outstanding at a variable interest rate based on a base rate (as defined in the applicable credit agreement), plus an applicable margin. We are charged commitment fees (as defined in the applicable credit agreement), whether or not amounts have been borrowed. These commitment fees are included in interest expense and were not material for the three months ended March 31, 2022 and 2021.

These facilities include customary affirmative and negative operating covenants and events of default.

Debt Covenants

As of March 31, 2022, we were in compliance with the covenants of all of our debt obligations.

9. RETIREMENT PLANS

Defined Contribution Savings Plan

We sponsor a 401(k) Plan for U.S. employees. Employees are immediately eligible to make contributions to the plan and are also eligible for an employer contribution match at an amount equal to 100.0% of the first 6.0% of eligible employee contributions. Savings plan expense included in compensation and benefits expense in the Condensed Consolidated Statements of Income was \$4 million for both the three months ended March 31, 2022 and 2021.

Pension and Supplemental Executive Retirement Plans

We maintain non-contributory, defined-benefit pension plans, non-qualified SERPs for certain senior executives and other post-retirement benefit plans for eligible employees in the U.S. Our pension plans and SERPs are frozen. Future service and salary for all participants do not count toward an accrual of benefits under the pension plans and SERPs. Most employees outside the U.S. are covered by local retirement plans or by applicable social laws. Benefits under social laws are generally expensed in the periods in which the costs are incurred. The total expense for these plans is included in compensation and benefits expense in the Condensed Consolidated Statements of Income and was \$6 million for both the three months ended March 31, 2022 and 2021.

10. SHARE-BASED COMPENSATION

We have a share-based compensation program for employees and nonemployee directors. Share-based awards granted under this program include restricted stock (consisting of restricted stock units), PSUs and stock options. For accounting purposes, we consider PSUs to be a form of restricted stock.

Summary of Share-Based Compensation Expense

The following table presents the total share-based compensation expense resulting from equity awards and the 15.0% discount for the ESPP for the three months ended March 31, 2022 and 2021, which is included in compensation and benefits expense in the Condensed Consolidated Statements of Income:

	Three Months Ended March 31,						
	2	022		2021			
		(in mi	llions)				
Share-based compensation expense before income taxes	\$	25	\$	19			
Income tax benefit		(6)		(5)			
Share-based compensation expense after income taxes	\$	19	\$	14			

Common Shares Available Under Our Equity Plan

As of March 31, 2022, we had approximately 9.3 million shares of common stock authorized for future issuance under our Equity Plan.

Restricted Stock

We grant restricted stock to most employees. The grant date fair value of restricted stock awards is based on the closing stock price at the date of grant less the present value of future cash dividends. Restricted stock awards granted to employees below the manager level generally vest 33.3% on the first anniversary of the grant date, 33.3% on the second anniversary of the grant date, and 33.3% on the third anniversary of the grant date. Restricted stock awards granted to employees at or above the manager level generally vest 33.3% on the second anniversary of the grant date, 33.3% on the third anniversary of the grant date, and 33.3% on the fourth anniversary of the grant date.

Summary of Restricted Stock Activity

The following table summarizes our restricted stock activity for the three months ended March 31, 2022:

Restricted Stock						
Number of Awards	Weighted-Average Grant Date Fair Value					
1,466,340	\$	106.16				
10,221		199.30				
(150,156)		81.93				
(15,953)		109.42				
1,310,452	\$	109.62				
	Number of Awards 1,466,340 10,221 (150,156) (15,953)	Number of Awards 1,466,340 \$ 10,221 (150,156) (15,953)				

As of March 31, 2022, \$71 million of total unrecognized compensation cost related to restricted stock is expected to be recognized over a weighted-average period of 1.7 years.

PSUs

PSUs are based on performance measures that impact the amount of shares that each recipient will receive upon vesting. Prior to April 1, 2020, we had two performance-based PSU programs for certain officers, a one-year performance-based program and a three-year cumulative performance-based program that focuses on TSR. Effective April 1, 2020, to better align the equity programs for eligible officers, the one-year performance-based program was eliminated and all eligible officers now participate in the three-year cumulative performance-based program. While the performance periods are complete for all PSUs granted under the one-year performance-based program, some shares underlying these PSUs have not vested.

One-Year PSU Program

The grant date fair value of PSUs under the one-year performance-based program was based on the closing stock price at the date of grant less the present value of future cash dividends. Under this program, an eligible employee received a target grant of PSUs, but could have received from 0.0% to 150.0% of the target amount granted, depending on the achievement of performance measures. These awards vest ratably on an annual basis over a three-year period

commencing with the end of the one-year performance period. Compensation cost is recognized over the performance period and the three-year vesting period based on the probability that such performance measures will be achieved, taking into account an estimated forfeiture rate.

Three-Year PSU Program

Under the three-year performance-based program, each eligible individual receives PSUs, subject to market conditions, with a three-year cumulative performance period that vest at the end of the performance period. Compensation cost is recognized over the three-year performance period, taking into account an estimated forfeiture rate, regardless of whether the market condition is satisfied, provided that the requisite service period has been completed. Performance will be determined by comparing Nasdaq's TSR to two peer groups, each weighted 50.0%. The first peer group consists of exchange companies, and the second peer group consists of all companies in the S&P 500. Nasdaq's relative performance ranking against each of these groups will determine the final number of shares delivered to each individual under the program. The award issuance under this program will be between 0.0% and 200.0% of the number of PSUs granted and will be determined by Nasdaq's overall performance against both peer groups. However, if Nasdaq's TSR is negative for the three-year performance period, regardless of TSR ranking, the award issuance will not exceed 100.0% of the number of PSUs granted. We estimate the fair value of PSUs granted under the three-year PSU program using the Monte Carlo simulation model, as these awards contain a market condition.

Grants of PSUs that were issued in 2019 with a three-year performance period exceeded the applicable performance parameters. As a result, an additional 289,307 units above the original target were granted in the first quarter of 2022 and were fully vested upon issuance.

Summary of PSU Activity

The following table summarizes our PSU activity for the three months ended March 31, 2022:

		P	SUS				
One-Year	Progr	Program Three-Year Program					
Number of Awards	Ave	rage Grant	Number of Awards	Weighted- Average Grant Date Fair Value			
49,734	\$	84.03	764,124	\$	135.04		
_		_	296,912		100.28		
_		_	(578,614)		97.70		
(259)		84.18	(399)		148.47		
49,475	\$	84.03	482,023	\$	158.45		
	Number of Awards 49,734 ———————————————————————————————————	Number of Ave E Ave E E E E E E E E E E E E E E E E E E E	Number of Awards	Number of Awards	Number of Awards		

In the preceding table, the granted amount under the three year program reflects additional awards granted based on overachievement of performance parameters.

As of March 31, 2022, \$1 million of total unrecognized compensation cost related to the one-year PSU program is expected to be recognized over a weighted-average period of 1.0 year. For the three-year PSU program, \$36 million of total unrecognized compensation cost is expected to be recognized over a weighted-average period of 1.3 years.

Stock Options

In January 2022, in connection with a new five year employment agreement, our President and Chief Executive Officer received an aggregate of 204,624 performance-based non-qualified stock options, which will vest as follows:

- 50% will vest contingent upon the achievement of certain performance conditions; and
- 50% will vest five years after the grant date, subject to continued employment through such date.

The fair value of stock options are estimated using the Black-Scholes option-pricing model. These options expire 10 years after the date of grant. There were no stock option awards granted for the three months ended March 31, 2021.

A summary of stock option activity for the three months ended March 31, 2022 is as follows:

	Number of Stock <u>Options</u>	Weighted- erage Exercise <u>Price</u>	Weighted- Average Remaining Contractual Term (in <u>years)</u>	Aggregate Intrinsic Value (in millions)
Outstanding at December 31, 2021	268,817	\$ 66.68	5.0 \$	39
Granted	204,624	202.46		
Outstanding at March 31, 2022	473,441	\$ 125.36	6.9\$	30
Exercisable at March 31, 2022	268,817	\$ 66.68	4.8 \$	30

The net cash proceeds from the exercise of 24,409 stock options for the three months ended March 31, 2021 was \$1 million.

As of March 31, 2022, the aggregate pre-tax intrinsic value of the outstanding and exercisable stock options in the above table was \$30 million and represents the difference between our closing stock price on March 31, 2022 of \$178.20 and the exercise price, times the number of shares that would have been received by the option holders had the option holders exercised their stock options on that date. This amount can change based on the fair market value of our common stock. As of March 31, 2021, 0.3 million outstanding stock options were exercisable and the weighted-average exercise price was \$66.68.

The total pre-tax intrinsic value of stock options exercised was \$3 million for the three months ended March 31, 2021.

ESPP

We have an ESPP under which approximately 4.2 million shares of our common stock were available for future issuance as of March 31, 2022. Under our ESPP, employees may purchase shares having a value not exceeding 10.0% of their annual compensation, subject to applicable annual Internal Revenue Service limitations. We record compensation expense related to the 15.0% discount that is given to our employees which totaled to \$3 million for the three months ended March 31, 2022 and \$2 million for the three months ended March 31, 2021.

11. NASDAQ STOCKHOLDERS' EQUITY

Common Stock

As of March 31, 2022, 300,000,000 shares of our common stock were authorized, 171,535,457 shares were issued and 164,488,485 shares were outstanding. As of December 31, 2021, 300,000,000 shares of our common stock were authorized, 173,418,939 shares were issued and 166,679,635 shares were outstanding. The holders of common stock are entitled to one vote per share, except that our certificate of incorporation limits the ability of any shareholder to vote in excess of 5.0% of the thenoutstanding shares of Nasdaq common stock.

Common Stock in Treasury, at Cost

We account for the purchase of treasury stock under the cost method with the shares of stock repurchased reflected as a reduction to Nasdaq stockholders' equity and included in common stock in treasury, at cost in the Condensed Consolidated Balance Sheets. Shares repurchased under our share repurchase program are currently retired and canceled and are therefore not included in the common stock in treasury balance. If treasury shares are reissued, they are recorded at the average cost of the treasury shares acquired. We held 7,046,972 shares of common stock in treasury as of March 31, 2022 and 6,739,304 shares as of December 31, 2021, most of which are related to shares of our common stock withheld for the settlement of employee tax withholding obligations arising from the vesting of restricted stock and PSUs.

Share Repurchase Program

As discussed in "2021 Divestiture," of Note 4, "Acquisition and Divestiture," in June 2021, our board of directors authorized an increase to our share repurchase program to an aggregate authorized amount of \$1.5 billion. As of March 31, 2022, the remaining aggregate authorized amount under the existing share repurchase program was \$459 million.

These repurchases may be made from time to time at prevailing market prices in open market purchases, privately-negotiated transactions, block purchase techniques, an accelerated share repurchase program or otherwise, as determined by our management. The repurchases are primarily funded from existing cash balances. The share repurchase program may be suspended, modified or discontinued at any time, and has no defined expiration date.

The following is a summary of our share repurchase activity, excluding the repurchases done through our ASR agreement described below, reported based on settlement date, for the three months ended March 31, 2022:

	Three	31, 2022
Number of shares of common stock repurchased		735,865
Average price paid per share	\$	191.91
Total purchase price (in millions)	\$	142

In the table above, the number of shares of common stock repurchased excludes an aggregate of 307,668 shares withheld upon the vesting of restricted stock and PSUs for the three months ended March 31, 2022.

As discussed above in "Common Stock in Treasury, at Cost," shares repurchased under our share repurchase program are currently retired and cancelled.

ASR Agreement

In January 2022, we entered into an ASR agreement to repurchase \$325 million of common stock. We received a total delivery of 1,876,387 shares of common stock and completed the ASR program during the first quarter of 2022.

Preferred Stock

Our certificate of incorporation authorizes the issuance of 30,000,000 shares of preferred stock, par value \$0.01 per share, issuable from time to time in one or more series. As of March 31, 2022 and December 31, 2021, no shares of preferred stock were issued or outstanding.

Cash Dividends on Common Stock

During the first three months of 2022, our board of directors declared and paid the following cash dividends:

Declaration Date	C	idend Per ommon Share	Record Date	I	Amount Paid nillions)	Payment Date
January 26, 2022	\$	0.54	March 11, 2022	\$	89	March 25, 2022

The total amount paid of \$89 million was recorded in retained earnings within Nasdaq's stockholders' equity in the Condensed Consolidated Balance Sheets at March 31, 2022.

In April 2022, the board of directors approved a regular quarterly cash dividend of \$0.60 per share on our outstanding common stock, which reflects an increase of 11% from our most recent quarterly cash dividend of \$0.54 per share. The dividend is payable on June 24, 2022 to shareholders of record at the close of business on June 10, 2022. The estimated amount of this dividend is \$99 million. Future declarations of quarterly dividends and the establishment of future record and payment dates are subject to approval by the board of directors.

The board of directors maintains a dividend policy with the intention to provide stockholders with regular and increasing dividends as earnings and cash flows increase.

Proposed Stock Split

In April 2022, we announced our plan to request shareholder and SEC approval for an increase in the number of authorized shares of common stock in order to effect a 3-for-1 stock split of the Company's common stock in the form of a stock dividend. If both approvals are received, the stock split is expected to be completed in the third quarter of 2022.

12. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended March 31,				
		2022	2021		
Numerator:		(in millions, except amo	share unts)	and per share	
Net income attributable to common shareholders	\$	284	\$	298	
Denominator:					
Weighted-average common shares outstanding for basic earnings per share		165,048,113		164,709,609	
Weighted-average effect of dilutive securi	ties				
Employee equity awards		2,200,025		2,382,473	
Weighted-average common shares outstanding for diluted earnings per share		167,248,138		167,092,082	
V		107,246,136	_	107,092,082	
Basic and diluted earnings per share:					
Basic earnings per share	\$	1.72	\$	1.81	
Diluted earnings per share	\$	1.70	\$	1.78	

In the tables above, employee equity awards from our PSU program, which are considered contingently issuable, are included in the computation of dilutive earnings per share on a weighted average basis when management determines that the applicable performance criteria would have been met if the performance period ended as of the date of the relevant computation.

Securities that were not included in the computation of diluted earnings per share because their effect was antidilutive were immaterial for the three months ended March 31, 2022.

13. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following tables present our financial assets and financial liabilities that were measured at fair value on a recurring basis as of March 31, 2022 and December 31, 2021.

March 31 2022

	March 31, 2022							
		Total Level		evel 1	I	Level 2	Level 3

Financial Instruments Not Measured at Fair Value on a Recurring Basis

Some of our financial instruments are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature. Such financial assets and financial liabilities include: cash and cash equivalents, restricted cash and cash equivalents, receivables, net, certain other current assets, accounts payable and accrued expenses, Section 31 fees payable to SEC, accrued personnel costs, commercial paper and certain other current liabilities.

Our investment in OCC is accounted for under the equity method of accounting. We have elected the measurement alternative for the majority of our equity securities, which primarily represent various strategic investments made through our corporate venture program. See "Equity Method Investments," and "Equity Securities," of Note 6, "Investments," for further discussion.

We also consider our debt obligations to be financial instruments. As of March 31, 2022, the majority of our debt obligations were fixed-rate obligations. We are exposed to changes in interest rates as a result of borrowings under our 2020 Credit Facility, as the interest rates on this facility have a variable rate depending on the maturity of the borrowing and the implied underlying reference rate. As of March 31, 2022, we had no outstanding borrowings under our 2020 Credit Facility. We are also exposed to changes in interest rates as a result of the amounts outstanding from the sale of commercial paper under our commercial paper program. As of March 31, 2022, we had no outstanding borrowings under our commercial paper program. The fair value of our debt obligations utilizing discounted cash flow analyses for our floating rate debt, and prevailing market rates for our fixed rate debt was \$5.5 billion as of March 31, 2022 and \$5.9 billion as of December 31, 2021. The discounted cash flow analyses are based on borrowing rates currently available to us for debt with similar terms and maturities. The fair value of our commercial paper as of March 31, 2022 approximated the carrying value since the rates of interest on this short-term debt approximated market rates. Our commercial paper and our fixed rate and floating rate debt are categorized as Level 2 in the fair value hierarchy.

For further discussion of our debt obligations, see Note 8, "Debt Obligations."

Non-Financial Assets Measured at Fair Value on a Non-Recurring Basis

Our non-financial assets, which include goodwill, intangible assets, and other long-lived assets, are not required to be carried at fair value on a recurring basis. Fair value measures of non-financial assets are primarily used in the impairment analysis of these assets. Any resulting asset impairment would require that the non-financial asset be recorded at its fair value. Nasdaq uses Level 3 inputs to measure the fair value of the above assets on a non-recurring basis. As of March 31, 2022 and December 31, 2021, there were no non-financial assets measured at fair value on a non-recurring basis.

14. CLEARING OPERATIONS

Nasdaq Clearing

Nasdaq Clearing is authorized and supervised under EMIR as a multi-asset clearinghouse by the SFSA. Such authorization is effective for all member states of the European Union and certain other non-member states that are part of the European Economic Area, including Norway. The clearinghouse acts as the CCP for exchange and OTC trades in equity derivatives, fixed income derivatives, resale and repurchase contracts, power derivatives, emission allowance derivatives, and seafood derivatives.

Through our clearing operations in the financial markets, which include the resale and repurchase market, the commodities markets, and the seafood market, Nasdaq Clearing is the legal counterparty for, and guarantees the fulfillment of, each contract cleared. These contracts are not used by Nasdaq Clearing for the purpose of trading on its own behalf. As the legal counterparty of each transaction, Nasdaq Clearing bears the counterparty risk between the purchaser and seller in the contract. In its guarantor role, Nasdaq Clearing has precisely equal and offsetting claims to and from clearing members on opposite sides of each contract, standing as the CCP on every contract cleared. In accordance with the rules and regulations of Nasdaq Clearing, default fund and margin collateral requirements are calculated for each clearing member's positions in accounts with the CCP. See "Default Fund Contributions and Margin Deposits" below for further discussion of Nasdaq Clearing's default fund and margin requirements.

Nasdaq Clearing maintains three member sponsored default funds: one related to financial markets, one related to commodities markets and one related to the seafood market. Under this structure, Nasdaq Clearing and its clearing members must contribute to the total regulatory capital related to the clearing operations of Nasdaq Clearing. This structure applies an initial separation of default fund contributions for the financial, commodities and seafood markets in order to create a buffer for each market's counterparty risks. See "Default Fund Contributions" below for further discussion of Nasdaq Clearing's default fund. A power of assessment and a liability waterfall have also been implemented to further align risk between Nasdaq Clearing and its clearing members. See "Power of Assessment" and "Liability Waterfall" below for further discussion.

Nasdaq Commodities Clearing Default

In September 2018, a member of the Nasdaq Clearing commodities market defaulted due to the inability to post sufficient collateral to cover increased margin requirements for the positions of the relevant member, which had experienced losses due to sharp adverse movements in the Nordic - German power market spread. Nasdaq Clearing followed default procedures and offset the future market risk on the defaulting member's positions.

Immediately following the event, Nasdaq Clearing launched a comprehensive enhancement program to strengthen the resilience and robustness of the clearinghouse.

In December 2018, the SFSA initiated a review of Nasdaq Clearing. In January 2021, the SFSA issued a warning combined with an administrative fine of approximately \$33 million (SEK 300 million) to Nasdaq Clearing based on its review. Nasdaq Clearing appealed the SFSA's decision to the Administrative Court. In December 2021, the court rejected Nasdaq Clearing's appeal and upheld the decision of the SFSA. In January 2022, Nasdaq Clearing appealed this decision to the Administrative Court of Appeal. While we continue to firmly believe in the merit of our appeal, due to the recent decision by the Administrative Court, we have determined it is appropriate to record an accrual for the full amount of the administrative fine issued by the SFSA. The charge was included in regulatory expense in our Consolidated Statements of Income for the year ended December 31, 2021.

Default Fund Contributions and Margin Deposits

As of March 31, 2022, clearing member default fund contributions and margin deposits were as follows:

		March 31, 2022				
	Cash (Cash Contributions		Non-Cash ntributions	Total Contributions	
			(in	millions)		
Default fund contributions	\$	736	\$	133	\$	869
Margin deposits		5,834		7,199		13,033
Total	\$	6,570	\$	7,332	\$	13,902

Of the total default fund contributions of \$869 million, Nasdaq Clearing can utilize \$764 million as capital resources in the event of a counterparty default. The remaining balance of \$105 million pertains to member posted surplus balances.

Our clearinghouse holds material amounts of clearing member cash deposits which are held or invested primarily to provide security of capital while minimizing credit, market and liquidity risks. While we seek to achieve a reasonable rate of return, we are primarily concerned with preservation of capital and managing the risks associated with these deposits.

Clearing member cash contributions are maintained in demand deposits held at central banks and large, highly rated financial institutions or secured through direct investments, primarily central bank certificates and highly rated European government debt securities with original maturities primarily 1 year or less, reverse repurchase agreements and multilateral development bank debt securities. Investments in reverse repurchase agreements range in maturity from 1 day to 20 days and are secured with highly rated government securities and multilateral development banks. The carrying value of these securities approximates their fair value due to the short-term nature of the instruments and reverse repurchase agreements.

Nasdaq Clearing has invested the total cash contributions of \$6,570 million as of March 31, 2022 and \$5,911 million as of December 31, 2021, in accordance with its investment policy as follows:

	March 31, 2022		De	December 31, 2021	
		(in mi	illions)		
Demand deposits	\$	4,270	\$	3,061	
Central bank certificates		1,128		2,013	
Restricted cash and cash equivalents	\$	5,398	\$	5,074	
European government debt securities		443		414	
Reverse repurchase agreements		457		152	
Multilateral development bank debt securities		272		271	
Investments	\$	1,172	\$	837	
Total	\$	6,570	\$	5,911	

In the table above, the change from December 31, 2021 to March 31, 2022 includes currency translation adjustments of \$160 million for restricted cash and cash equivalents and \$37 million for investments.

For the three months ended March 31, 2022 and 2021 investments related to default funds and margin deposits, net includes purchases of investment securities of \$10,647 million and \$12,197 million, respectively, and proceeds from sales and redemptions of investment securities of \$10,275 million and \$12,002 million, respectively.

In the investment activity related to default fund and margin contributions, we are exposed to counterparty risk related to reverse repurchase agreement transactions, which reflect the risk that the counterparty might become insolvent and, thus, fail to meet its obligations to Nasdaq Clearing. We mitigate this risk by only engaging in transactions with high credit quality reverse repurchase agreement counterparties and by limiting the acceptable collateral under the reverse repurchase agreement to high quality issuers, primarily government securities and other securities explicitly guaranteed by a government. The value of the underlying security is monitored during the lifetime of the contract, and in the event the market value of the underlying security falls below the reverse repurchase amount, our clearinghouse may require additional collateral or a reset of the contract.

Default Fund Contributions

Required contributions to the default funds are proportional to the exposures of each clearing member. When a clearing member is active in more than one market, contributions must be made to all markets' default funds in which the member is active. Clearing members' eligible contributions may include cash and non-cash contributions. Cash contributions received are maintained in demand deposits held at central banks and large, highly rated financial institutions or invested by Nasdaq Clearing, in accordance with its investment policy, either in central bank certificates,

highly rated government debt securities, reverse repurchase agreements with highly rated government debt securities as collateral, or multilateral development bank debt securities. Nasdaq Clearing maintains and manages all cash deposits related to margin collateral. All risks and rewards of collateral ownership, including interest, belong to Nasdaq Clearing. Clearing members' cash contributions are included in default funds and margin deposits in the Condensed Consolidated Balance Sheets as both a current asset and a current liability. Non-cash contributions include highly rated government debt securities that must meet specific criteria approved by Nasdaq Clearing. Non-cash contributions are pledged assets that are not recorded in the Condensed Consolidated Balance Sheets as Nasdaq Clearing does not take legal ownership of these assets and the risks and rewards remain with the clearing members. These balances may fluctuate over time due to changes in the amount of deposits required and whether members choose to provide cash or non-cash contributions. Assets pledged are held at a nominee account in Nasdaq Clearing's name for the benefit of the clearing members and are immediately accessible by Nasdaq Clearing in the event of a default. In addition to clearing members' required contributions to the liability waterfall, Nasdaq Clearing is also required to contribute capital to the liability waterfall and overall regulatory capital as specified under its clearinghouse rules. As of March 31, 2022, Nasdaq Clearing committed capital totaling \$132 million to the liability waterfall and overall regulatory capital, in the form of government debt securities, which are recorded as financial investments in the Condensed Consolidated Balance Sheets. The combined regulatory capital of the clearing members and Nasdaq Clearing is intended to secure the obligations of a clearing member exceeding such member's own margin and default fund deposits and may be used to cover losses sustained by a clearing member in the event of a default.

Margin Deposits

Nasdaq Clearing requires all clearing members to provide collateral, which may consist of cash and non-cash contributions, to guarantee performance on the clearing members' open positions, or initial margin. In addition, clearing members must also provide collateral to cover the daily margin call if needed. See "Default Fund Contributions" above for further discussion of cash and non-cash contributions.

Similar to default fund contributions, Nasdaq Clearing maintains and manages all cash deposits related to margin collateral. All risks and rewards of collateral ownership, including interest, belong to Nasdaq Clearing and are recorded in revenues. These cash deposits are recorded in default funds and margin deposits in the Condensed Consolidated Balance Sheets as both a current asset and a current liability. Pledged margin collateral is not recorded in our Condensed Consolidated Balance Sheets as all risks and rewards of collateral ownership, including interest, belong to the counterparty. Assets pledged are held at a nominee account in Nasdaq Clearing's name for the benefit of the clearing members and are immediately accessible by Nasdaq Clearing in the event of a default.

Nasdaq Clearing marks to market all outstanding contracts and requires payment from clearing members whose positions have lost value. The mark-to-market process helps identify any clearing members that may not be able to satisfy their financial obligations in a timely manner allowing Nasdaq Clearing the ability to mitigate the risk of a clearing member defaulting due to exceptionally large losses. In the event of a default, Nasdaq Clearing can access the defaulting member's margin and default fund deposits to cover the defaulting member's losses.

Regulatory Capital and Risk Management Calculations

Nasdaq Clearing manages risk through a comprehensive counterparty risk management framework, which is comprised of policies, procedures, standards and financial resources. The level of regulatory capital is determined in accordance with Nasdaq Clearing's regulatory capital and default fund policy, as approved by the SFSA. Regulatory capital calculations are continuously updated through a proprietary capital-at-risk calculation model that establishes the appropriate level of capital.

As mentioned above, Nasdaq Clearing is the legal counterparty for each contract cleared and thereby guarantees the fulfillment of each contract. Nasdaq Clearing accounts for this guarantee as a performance guarantee. We determine the fair value of the performance guarantee by considering daily settlement of contracts and other margining and default fund requirements, the risk management program, historical evidence of default payments, and the estimated probability of potential default payouts. The calculation is determined using proprietary risk management software that simulates gains and losses based on historical market prices, extreme but plausible market scenarios, volatility and other factors present at that point in time for those particular unsettled contracts. Based on this analysis, excluding any liability related to the Nasdaq commodities clearing default (see discussion above), the estimated liability was nominal and no liability was recorded as of March 31, 2022.

Power of Assessment

To further strengthen the contingent financial resources of the clearinghouse, Nasdaq Clearing has power of assessment that provides the ability to collect additional funds from its clearing members to cover a defaulting member's remaining obligations up to the limits established under the terms of the clearinghouse rules. The power of assessment corresponds to 230.0% of the clearing member's aggregate contribution to the financial, commodities and seafood markets' default funds.

Liability Waterfall

The liability waterfall is the priority order in which the capital resources would be utilized in the event of a default where the defaulting clearing member's collateral would not be sufficient to cover the cost to settle its portfolio. If a default occurs and the defaulting clearing member's collateral, including cash deposits and pledged assets, is depleted, then capital is utilized in the following amount and order:

- junior capital contributed by Nasdaq Clearing, which totaled \$42 million as of March 31, 2022;
- a loss-sharing pool related only to the financial market that is contributed to by clearing members and only applies if the defaulting member's portfolio includes interest rate swap products;
- specific market default fund where the loss occurred (i.e., the financial, commodities, or seafood market), which includes capital contributions of the clearing members on a pro-rata basis; and
- fully segregated senior capital for each specific market contributed by Nasdaq Clearing, calculated in accordance with clearinghouse rules, which totaled \$23 million as of March 31, 2022.

If additional funds are needed after utilization of the liability waterfall, or if part of the waterfall has been utilized and needs to be replenished, then Nasdaq Clearing will utilize its power of assessment and additional capital contributions will be required by non-defaulting members up to the limits established under the terms of the clearinghouse rules.

In addition to the capital held to withstand counterparty defaults described above, Nasdaq Clearing also has committed capital of \$67 million to ensure that it can handle an orderly wind-down of its operation, and that it is adequately protected against investment, operational, legal, and business risks

Market Value of Derivative Contracts Outstanding

The following table presents the market value of derivative contracts outstanding prior to netting:

	March 31, 2022		
	(i	n millions)	
Commodity and seafood options, futures and forwards	\$	518	
Fixed-income options and futures		1,345	
Stock options and futures		228	
Index options and futures		82	
Total	\$	2,173	

In the table above:

- We determined the fair value of our option contracts using standard valuation models that were based on market-based observable inputs including implied volatility, interest rates and the spot price of the underlying instrument.
- We determined the fair value of our futures contracts based upon quoted market prices and average quoted market yields.
- We determined the fair value of our forward contracts using standard valuation models that were based on market-based observable inputs including benchmark rates and the spot price of the underlying instrument.

Derivative Contracts Cleared

The following table presents the total number of derivative contracts cleared through Nasdaq Clearing for the three months ended March 31, 2022 and 2021:

	March 31, 2022	March 31, 2021
Commodity and seafood options, futures and forwards	96,153	155,662
Fixed-income options and futures	6,594,330	6,404,204
Stock options and futures	5,113,644	6,306,308
Index options and futures	13,144,541	9,076,033
Total	24,948,668	21,942,207

In the table above, the total volume in cleared power related to commodity contracts was 135 Terawatt hours (TWh) and 250 TWh for the three months ended March 31, 2022 and 2021, respectively.

Resale and Repurchase Agreements Contracts Outstanding and Cleared

The outstanding contract value of resale and repurchase agreements was \$1.0 billion as of March 31, 2022 and the total number of resale and repurchase agreements contracts cleared was 1,317,510 for the three months ended March 31, 2022.

15. LEASES

We have operating leases which are primarily real estate leases predominantly for our U.S. and European headquarters, data centers and for general office space. The following table provides supplemental balance sheet information related to Nasdaq's operating leases:

Leases	Balance Sheet Classification	Marc	ch 31, 2022	Dece	mber 31, 2021
			(in m	illions)	
Assets:					
Operating lease assets	Operating lease assets	\$	470	\$	366
Liabilities:					
Current lease liabilities	Other current liabilities	\$	58	\$	37
Non-current lease liabilities	Operating lease liabilities		478		386
Total lease liabilities		\$	536	\$	423

The following table summarizes Nasdaq's lease cost:

	Three Months Ended March 31,			
		2022	2021	
	(in millions)			
Operating lease cost	\$	20 \$	22	
Variable lease cost		8	7	
Sublease income		(1)	(1)	
Total lease cost	\$	27 \$	28	

In the table above, operating lease costs include short-term lease cost, which was immaterial.

The following table reconciles the undiscounted cash flows for each of the first five years and total of the remaining years to the operating lease liabilities recorded in our Condensed Consolidated Balance Sheets.

	March 31, 2022	
		(in millions)
Remainder of 2022	\$	57
2023		71
2024		66
2025		52
2026		48
2027+		358
Total lease payments		652
Less: interest		(116)
Present value of lease liabilities	\$	536

In the table above, interest is calculated using the interest rate for each lease. Present value of lease liabilities include the current portion of \$58 million.

Total lease payments in the table above exclude \$44 million of legally binding minimum lease payments for lease signed but not yet commenced.

The following table provides information related to Nasdaq's lease term and discount rate:

	March 31, 2022
Weighted-average remaining lease term (in years)	11.0
Weighted-average discount rate	3.5 %

The following table provides supplemental cash flow information related to Nasdaq's operating leases:

	Three Months Ended March 31,			Iarch 31,
		2022		2021
	(in millions)			
Cash paid for amounts included in the measurement of operating lease liabilities	\$	9	\$	19
Lease assets obtained in exchange for	-		-	
operating lease liabilities	\$	118	\$	33

16. INCOME TAXES

Income Tax Provision

The following table presents our income tax provision and effective tax rate:

	Three Months Ended March 31,				
		2022		2021	
		(in ı	nillions)		
Income tax provision	\$	91	\$	97	
Effective tax rate		24.3 %)	24.6 %	

The effective tax rate may vary from period to period depending on, among other factors, the geographic and business mix of earnings and losses. These same and other factors, including history of pre-tax earnings and losses, are taken into account in assessing the ability to realize deferred tax assets.

Tax Audits

Nasdaq and its eligible subsidiaries file a consolidated U.S. federal income tax return, applicable state and local income tax returns and non-U.S. income tax returns. We are subject to examination by federal, state and local, and foreign tax authorities. Our Federal income tax returns for the years 2018 through 2020 are subject to examination by the Internal Revenue Service. Several state tax returns are currently under examination by the respective tax authorities for the years 2012 through 2018, while 2019 and 2020 are subject to examination. Non-U.S. tax returns are subject to examination by the respective tax authorities for the years 2015 through 2020.

We regularly assess the likelihood of additional assessments by each jurisdiction and have established tax reserves that we believe are adequate in relation to the potential for additional assessments. Examination outcomes and the timing of examination settlements are subject to uncertainty. Although the results of such examinations may have an impact on our unrecognized tax benefits, we do not anticipate that such impact will be material to our condensed consolidated financial position or results of operations, but may be material to our operating results for a particular period and the effective tax rate for that period. We do not expect the settlement of any tax audits to be material in the next twelve months.

17. COMMITMENTS, CONTINGENCIES AND GUARANTEES

Guarantees Issued and Credit Facilities Available

In addition to the default fund contributions and margin collateral pledged by clearing members discussed in Note 14, "Clearing Operations," we have obtained financial guarantees and credit facilities, which are guaranteed by us through counter indemnities, to provide further liquidity related to our clearing businesses. Financial guarantees issued to us totaled \$5 million as of March 31, 2022 and December 31, 2021. As discussed in "Other Credit Facilities," of Note 8, "Debt Obligations," we also have credit facilities primarily related to our Nasdaq Clearing operations, which are available in multiple currencies, and totaled \$204 million as of March 31, 2022 and \$212 million as of December 31, 2021 in available liquidity, none of which was utilized.

Other Guarantees

Through our clearing operations in the financial markets, Nasdaq Clearing is the legal counterparty for, and guarantees the performance of, its clearing members. See Note 14, "Clearing Operations," for further discussion of Nasdaq Clearing performance guarantees.

We have provided a guarantee related to lease obligations for The Nasdaq Entrepreneurial Center, Inc., which is a not-for-profit organization designed to convene, connect and engage aspiring and current entrepreneurs. This entity is not included in the condensed consolidated financial statements of Nasdaq.

We believe that the potential for us to be required to make payments under these arrangements is unlikely. Accordingly, no contingent liability is recorded in the Condensed Consolidated Balance Sheets for the above guarantees.

Routing Brokerage Activities

One of our broker-dealer subsidiaries, Nasdaq Execution Services, provides a guarantee to securities clearinghouses and exchanges under its standard membership agreements, which require members to guarantee the performance of other members. If a member becomes unable to satisfy its obligations to a clearinghouse or exchange, other members would be required to meet its shortfalls. To mitigate these performance risks, the exchanges and clearinghouses often

require members to post collateral, as well as meet certain minimum financial standards. Nasdaq Execution Services' maximum potential liability under these arrangements cannot be quantified. However, we believe that the potential for Nasdaq Execution Services to be required to make payments under these arrangements is unlikely. Accordingly, no contingent liability is recorded in the Condensed Consolidated Balance Sheets for these arrangements.

Legal and Regulatory Matters

Litigation

As previously disclosed, we were named as one of many defendants in City of Providence v. BATS Global Markets, Inc., et al., 14 Civ. 2811 (S.D.N.Y.), which was filed on April 18, 2014 in the United States District Court for the Southern District of New York. The plaintiffs alleged that the defendants engaged in a scheme to manipulate the markets through high-frequency trading and asserted claims under Section 10(b) of the Exchange Act and Rule 10b-5. Discovery, focused on issues of whether the case could be certified as a class action and whether the plaintiffs' claims were precluded by federal securities regulation, ended on April 26, 2021, and motions and expert testimony regarding those issues were filed on May 28, 2021.

On March 28, 2022, the court issued an opinion and order excluding the testimony of one of the plaintiffs' expert witnesses, concluding that the testimony was not sufficiently tied to the facts of the case and that it was not based on reliable methodology. On that basis, the court also granted summary judgment for the defendants, finding that there was no admissible evidence upon which a jury could reasonably conclude that the plaintiffs had suffered injury that was fairly traceable to the defendants' conduct. On April 26, 2022, the plaintiffs filed an appeal of the decision to the United States Court of Appeals for the Second Circuit. On May 4, 2022, Nasdaq entered into an agreement with the plaintiffs under which the plaintiffs agreed to dismiss Nasdaq from their appeal with prejudice and Nasdaq agreed not to pursue sanctions against the plaintiffs or their counsel, without either Nasdaq or the plaintiffs providing financial compensation for the resolution. Accordingly, Nasdaq is no longer a party to the case and the matter is now fully resolved with respect to Nasdaq.

Armenian Stock Exchange Investigation

As disclosed in our prior filings with the SEC, a former non-U.S. subsidiary of Nasdaq, NASDAQ OMX Armenia OJSC, operated the Armenian Stock Exchange and the Central Depository of Armenia, which are regulated by the Central Bank of Armenia under Armenian law. In accordance with the requirements of Armenian law, Mellat Bank SB CJSC, an Armenian entity that is designated under Executive Order 13382, was a market participant on the Armenian Stock Exchange and, as a result, paid participation and transaction fees to the Armenian Stock Exchange during the period from 2012-2014. In 2014, we voluntarily self-disclosed this matter to the U.S. Department of Treasury's Office of Foreign

Assets Control, or OFAC, and received authorization from OFAC to continue, if necessary, certain activities pertaining to Mellat Bank SB CJSC in Armenia in a limited manner. In 2015, Nasdaq sold a majority of its ownership of Nasdaq OMX Armenia OJSC, with the remaining minority interest sold in 2018.

OFAC has been conducting an inquiry into the Armenian Stock Exchange matter described above and in our prior filings since 2016, and during the first quarter of 2021, we were advised that OFAC is considering a civil monetary penalty in connection with that matter. We are currently in discussions with OFAC.

While we believe our decision to voluntarily self-report this issue and our continued cooperation with OFAC, along with the permit we received from OFAC in connection with our transactions involving the Armenian Stock Exchange, will be mitigating factors with respect to the matter, any monetary fines or restrictions may nonetheless be material to our financial results in the period in which they are imposed. We cannot currently predict when our discussions with OFAC will conclude or the amount of any potential penalties imposed. Accordingly, we are unable to reasonably estimate any potential loss or range of loss and we have not accrued for a loss contingency.

Nasdaq Commodities Clearing Default

In December 2021, we recorded a charge related to an administrative fine issued by the SFSA associated with the default which occurred in 2018. The charge was included in regulatory expense in our Consolidated Statements of Income for the year ended December 31, 2021. See "Nasdaq Commodities Clearing Default," of Note 14, "Clearing Operations," for further information.

Other Matters

Except as disclosed above and in prior reports filed under the Exchange Act, we are not currently a party to any litigation or proceeding that we believe could have a material adverse effect on our business, consolidated financial condition, or operating results. However, from time to time, we have been threatened with, or named as a defendant in, lawsuits or involved in regulatory proceedings.

In the normal course of business, Nasdaq discusses matters with its regulators raised during regulatory examinations or otherwise subject to their inquiries. Management believes that censures, fines, penalties or other sanctions that could result from any ongoing examinations or inquiries will not have a material impact on its consolidated financial position or results of operations. However, we are unable to predict the outcome or the timing of the ultimate resolution of these matters, or the potential fines, penalties or injunctive or other equitable relief, if any, that may result from these matters.

Tax Audits

We are engaged in ongoing discussions and audits with taxing authorities on various tax matters, the resolutions of which are uncertain. Currently, there are matters that may lead to assessments, some of which may not be resolved for several years. Based on currently available information, we believe we have adequately provided for any assessments that could result from those proceedings where it is more likely than not that we will be assessed. We review our positions on these matters as they progress. See "Tax Audits," of Note 16, "Income Taxes," for further discussion.

18. BUSINESS SEGMENTS

We manage, operate and provide our products and services in four business segments: Market Technology, Investment Intelligence, Corporate Platforms and Market Services. See Note 1, "Organization and Nature of Operations," for further discussion of our reportable segments.

Our management allocates resources, assesses performance and manages these businesses as four separate segments. We evaluate the performance of our segments based on several factors, of which the primary financial measure is operating income. Results of individual businesses are presented based on our management accounting practices and structure. Our chief operating decision maker does not review total assets or statements of income below operating income by segments as key performance metrics; therefore, such information is not presented below.

The following table presents certain information regarding our business segments for the three months ended March 31, 2022 and 2021:

	Three Months Ended March 31,			
		2022		2021
Market Technology		(in mi	(in millions)	
Total revenues	\$	124	\$	100
Operating income		4		(2)
Investment Intelligence				
Total revenues		284		256
Operating income		184		166
Corporate Platforms				
Total revenues		168		146
Operating income		75		58
Market Services				
Total revenues		958		1,134
Transaction-based expenses		(643)		(800)
Revenues less transaction-based expenses		315		334
Operating income		200		226
Corporate Items				
Total revenues		1		15
Operating income (loss)		(58)		(83)
Consolidated				
Total revenues	\$	1,535	\$	1,651
Transaction-based expenses		(643)		(800)
Revenues less transaction-based expenses	\$	892	\$	851
Operating income	\$	405	\$	365

Certain amounts are allocated to corporate items in our management reports as we believe they do not contribute to a meaningful evaluation of a particular segment's ongoing operating performance. These items, which are presented in the table below, include the following:

• Amortization expense of acquired intangible assets: We amortize intangible assets acquired in connection with various acquisitions. Intangible asset amortization expense can vary from period to period due to episodic acquisitions completed, rather than from our ongoing business operations. As such, if intangible asset amortization is included in performance measures, it is more difficult to assess the day-to-day operating performance of the segments, and the relative operating performance of the segments between periods. Management does not consider intangible asset amortization expense for the purpose of evaluating the performance of our segments or their managers or when making decisions to allocate resources. Therefore, we believe performance measures excluding intangible asset amortization expense provide management with a useful representation of our segments' ongoing activity in each period.

- Merger and strategic initiatives expense: We have pursued various strategic initiatives and completed acquisitions and divestitures in recent years that have resulted in expenses which would not have otherwise been incurred. These expenses generally include integration costs, as well as legal, due diligence and other third party transaction costs. The frequency and the amount of such expenses vary significantly based on the size, timing and complexity of the transaction. Management does not consider merger and strategic initiatives expense for the purpose of evaluating the performance of our segments or their managers or when making decisions to allocate resources. Therefore, we believe performance measures excluding merger and strategic initiatives expense provide management with a useful representation of our segments' ongoing activity in each period.
- Restructuring charges: We initiated the transition of certain technology platforms to advance our strategic opportunities as a technology and analytics provider and continue the realignment of certain business areas. See Note 19, "Restructuring Charges," for further discussion of our 2019 restructuring plan. We believe performance measures excluding restructuring charges provide management with a useful representation of our segments' ongoing activity in each period.
- Revenues and expenses divested/contributed businesses: We have included in corporate items the revenues and expenses of our U.S. Fixed Income business, which was previously included in our Market Services and Investment Intelligence results. See "2021 Divestiture," of Note 4, "Acquisition and Divestiture," for further discussion of this divestiture. Additionally, other revenues related to a transitional services agreement associated with a divested business are included in corporate items. Also included are the revenues and expenses associated with the NPM business, which we contributed in July 2021 to a standalone, independent company, of which we own the largest minority interest together with a consortium of third party financial institutions. Prior to July these revenues were previously included in our Corporate Platforms results.
- Other significant items: We have included certain other charges or gains
 in corporate items, to the extent we believe they should be excluded
 when evaluating the ongoing operating performance of each individual
 segment.

The above charges are recorded in general, administrative and other expense, unless otherwise noted, in our Condensed Consolidated Statements of Income.

The following table summarizes our Corporate Items:

	Three Months Ended March 31,			
		2022		2021
		(in mi	llions)	
Revenues - divested/contributed businesses	\$	1	\$	15
Expenses:				
Amortization expense of acquired intangible assets	\$	40	\$	36
Merger and strategic initiatives expense		15		45
Restructuring charges		_		10
Expenses - divested/contributed businesses		_		5
Other		4		2
Total expenses		59		98
Operating loss	\$	(58)	\$	(83)

For further discussion of our segments' results, see "Segment Operating Results," of "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations."

19. RESTRUCTURING CHARGES

In September 2019, we initiated the transition of certain technology platforms to advance the company's strategic opportunities as a technology and analytics provider and continue the realignment of certain business areas. In connection with these restructuring efforts, we retired certain elements of our marketplace infrastructure and technology product offerings as we implement NFF and other technologies internally and externally. This represented a fundamental shift in our strategy and technology as well as executive realignment. In June 2021, we completed our 2019 restructuring plan and recognized total pre-tax charges of \$118 million over a two-year period. Total pre-tax charges related primarily to non-cash items such as asset impairments and accelerated depreciation, and third-party consulting costs. Severance and employee-related charges were also incurred.

The following table presents a summary of the 2019 restructuring plan charges in the Condensed Consolidated Statements of Income for the three months ended March 31, 2021 which primarily consisted of consulting services, asset impairment charges primarily related to capitalized software that was retired, and accelerated depreciation expense on certain assets as a result of a decrease in their useful life.

	Three Months Ended March 31, 2021		
	(in r	nillions)	
Asset impairment charges and accelerated depreciation expense	\$	1	
Consulting services		5	
Other		4	
Total restructuring charges	\$	10	

Item 2. Management's Discussion and Analysis of Financial Condition and Results Of Operations

The following discussion and analysis of the financial condition and results of operations of Nasdaq should be read in conjunction with our condensed consolidated financial statements and related notes included in this Form 10-O.

OVERVIEW

Nasdaq is a global technology company serving the capital markets and other industries. Our diverse offerings of data, analytics, software and services enables clients to optimize and execute their business vision with confidence.

We manage, operate and provide our products and services in four business segments: Market Technology, Investment Intelligence, Corporate Platforms and Market Services.

First Quarter 2022 and Recent Developments

Cash Dividend on Common Stock

- In April 2022, the board of directors approved a regular quarterly cash dividend of \$0.60 per share on our outstanding common stock, which reflects an increase of 11% from our most recent quarterly cash dividend of \$0.54 per share.
- For the three months ended March 31, 2022, we returned \$89 million to shareholders through dividend payments.

Share Repurchase Program

- In January 2022, we entered into an ASR agreement to repurchase \$325 million of common stock. We received a total delivery of 1,876,387 shares of common stock and completed the ASR program during the first quarter of 2022.
- In the first quarter of 2022, in addition to the ASR described above, we repurchased 735,865 shares of common stock for an aggregate of \$142 million.
- As of March 31, 2022, the remaining amount authorized for share repurchases under our share repurchase program was \$459 million.

Recent Developments

 We have assessed the impact of the Russian invasion of Ukraine and as of March 31, 2022, we do not believe we have material exposure to Russian clients. We will continue to assess the ongoing impact of the war.

Corporate Highlights

 Overall AUM in ETPs benchmarked to our proprietary indexes totaled \$401 billion as of March 31, 2022, an increase of 4% compared to March 31, 2021. Additionally, the number of futures and options on futures contracts tracking Nasdaq indexes set a quarterly record with 147 million contracts traded, an increase of 40% year over year.

- The Nasdaq Stock Market led U.S. exchanges for IPOs during the first quarter of 2022. The Nasdaq Stock Market IPO win rate was 86% in the first quarter of 2022, including 70 IPOs representing \$9 billion in capital raised. There were 27 operating company and 43 special purpose acquisition company IPOs during the period.
- Market Services net revenues totaled \$315 million in the first quarter of 2022, the second highest quarterly revenues versus the record achieved in the first quarter of 2021. In the equity derivatives business, Nasdaq led all exchanges during the first quarter of 2022 in total multiply-listed U.S. options traded and achieved record net revenues of \$112 million. Nasdaq's Nordic equities markets saw strong volumes with the value of shares traded on Nasdaq's Nordic and Baltic markets totaling €289 billion, the highest in the last decade.

Financial Summary

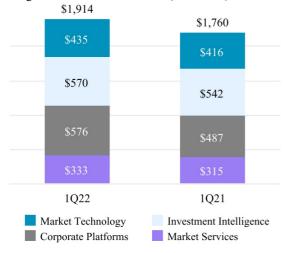

The following table summarizes our financial performance for the three months ended March 31, 2022 when compared to the same period in 2021. The comparability of our results of operations between reported periods is impacted by the acquisition of Verafin in February 2021 and the divestiture of our U.S. Fixed Income business in June 2021, which was part of our FICC business within our Market Services segment, as well as the contribution of our NPM business in July 2021 to a standalone, independent company, of which we own the largest minority interest, together with a consortium of third party financial institutions. See "2021 Divestiture," and "2021 Acquisition," of Note 4, "Acquisition and Divestiture," to the condensed consolidated financial statements for further discussion. For a detailed discussion of our results of operations, see "Segment Operating Results" below.

	Three Months Ended March 31,				Percentage	
	2	2022		2021	Change	
	(in mill	ions, except	per	share amounts)		
Revenues less transaction- based expenses	\$	892	\$	851	4.8 %	
Operating expenses		487		486	0.2 %	
Operating income		405		365	11.0 %	
Net income attributable to Nasdaq	\$	284	\$	298	(4.7)%	
Diluted earnings per share	\$	1.70	\$	1.78	(4.5)%	
Cash dividends declared per common share	\$	0.54	\$	0.49	10.2 %	

In countries with currencies other than the U.S. dollar, revenues and expenses are translated using monthly average exchange rates. Impacts on our revenues less transaction-based expenses and operating income associated with fluctuations in foreign currency are discussed in more detail under "Item 3. Quantitative and Qualitative Disclosures about Market Risk."

Nasdaq's Operating Results

The following chart summarizes our ARR (in millions):

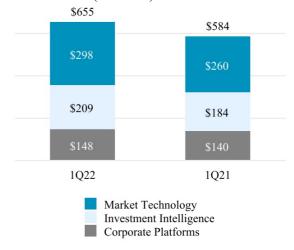

ARR for a given period is the annualized revenue derived from subscription contracts with a defined contract value. This excludes contracts that are not recurring, are one-time in nature, or where the contract value fluctuates based on defined metrics. ARR is one of our key performance metrics to assess the health and trajectory of our recurring business. ARR does not have any standardized definition and is therefore unlikely to be comparable to similarly titled measures presented by other companies. ARR should be viewed independently of revenue and deferred revenue and is not intended to be combined with or to replace either of those items. ARR is not a forecast and the active contracts at the end of a reporting period used in calculating ARR may or may not be extended or renewed by our customers.

The ARR chart includes:

- Active Market Technology support and SaaS subscription contracts.
- Proprietary market data and index data subscriptions as well as subscription contracts for eVestment, Solovis, NDW Research Platform, Nasdaq Fund Network and Nasdaq Data Link. It also includes guaranteed minimum on futures contracts within the Index business.
- U.S. and Nordic annual listing fees, IR and ESG products, including subscription contracts for IR Insight, board portals and OneReport, as well as IR advisory services.
- Trade Management Services business, excluding one-time service requests.

The following chart summarizes our quarterly annualized SaaS revenues for our Solutions Segments, which is comprised of the Market Technology, Investment Intelligence and Corporate Platforms segments, for the first quarter of 2022 and 2021 (in millions):

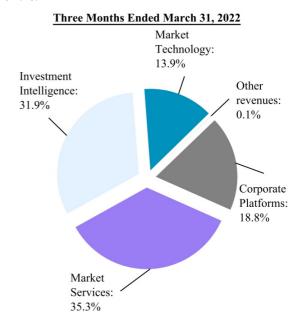

Segment Operating Results

The following table presents our revenues by segment, transaction-based expenses for our Market Services segment and total revenues less transaction-based expenses:

	T	hree Months Ended	Percentage		
	2022		2021	Change	
		(in millions)			
Market Technology	\$	124 \$	100	24.0 %	
Investment Intelligence		284	256	10.9 %	
Corporate Platforms		168	146	15.1 %	
Market Services		958	1,134	(15.5)%	
Other revenues		1	15	(93.3)%	
Total revenues	\$	1,535 \$	1,651	(7.0)%	
Transaction rebates		(581)	(654)	(11.2)%	
Brokerage, clearance and exchange fees		(62)	(146)	(57.5)%	
Total revenues less transaction-based					
expenses	\$	892 \$	851	4.8 %	

The following charts present our Market Technology, Investment Intelligence, Corporate Platforms and Market Services segments as a percentage of our total revenues, less transaction-based expenses, of \$892 million for the three months ended March 31, 2022 and \$851 million for the three months ended March 31, 2021.

Percentage of Revenues Less Transaction-based Expenses by Segment for the:

Three Months Ended March 31, 2021

MARKET TECHNOLOGY

The following tables present revenues and key drivers from our Market Technology segment:

	Thi	ree Months Ended M	Percentage	
		2022	2021	Change
		(in millions)		
Anti Financial Crime Technology	\$	72 \$	42	71.4 %
Marketplace Infrastructure Technology		52	58	(10.3)%
Total Market Technology	\$	124 \$	100	24.0 %

	Three Months Ended March 31,			
		2022		2021
		(in m	illions)	
Order intake	\$	48	\$	41
ARR		435		416
Quarterly annualized SaaS revenues		298		260

In the table above, order intake is the total contract value of orders signed during the period, excluding Verafin. ARR and SaaS revenues include Verafin.

Anti Financial Crime Technology Revenues

Anti-financial crime technology revenues increased in the first quarter of 2022 compared with the same period in 2021 primarily due to the inclusion of revenues from our acquisition of Verafin, new sales and strong retention.

Marketplace Infrastructure Technology Revenues

Marketplace infrastructure technology revenues decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to the successful completion of a significant long-term contract, and lower professional services revenue.

INVESTMENT INTELLIGENCE

The following tables present revenues and key drivers from our Investment Intelligence segment:

	Th			
		2022	2021	Percentage Change
		(in millions)	
Market Data	\$	108 \$	106	1.9 %
Index		122	102	19.6 %
Analytics		54	48	12.5 %
Total Investment Intelligence	\$	284 \$	256	10.9 %

	Three Months Ended March		March 31,	
		2022		2021
Number of licensed ETPs		368		349
ETP AUM tracking Nasdaq indexes (in billions)	\$	401	\$	385
TTM Net appreciation (in billions)	\$	33	\$	127
Net impact of ETP sponsor switches (in billions)	\$	(92)	\$	_
TTM Net inflows in ETP AUM tracking Nasdaq indexes (in billions)	\$	75	\$	52
ARR (in millions)	\$	570	\$	542
Quarterly annualized SaaS revenues (in millions)	\$	209	\$	184

In the tables above, TTM represents trailing twelve months.

Market Data Revenues

Market data revenues increased in the first quarter of 2022 compared with the same period in 2021 primarily due to an increase in proprietary data revenues driven by higher international demand.

Index Revenues

Index revenues increased in the first quarter of 2022 compared with the same period in 2021 primarily due to higher licensing revenues from higher average AUM in ETPs linked to Nasdaq indexes and higher licensing revenues from futures trading linked to the Nasdaq-100 Index.

Analytics Revenues

Analytics revenues increased in the first quarter of 2022 compared with the same period in 2021 primarily due to the growth in our eVestment platform driven by new sales and strong retention.

CORPORATE PLATFORMS

The following tables present revenues and key drivers from our Corporate Platforms segment:

	Th	ree Months Ended	D	
		2022	2021	Percentage Change
		(in millions)	
Listing Services	\$	107 \$	89	20.2 %
IR & ESG Services		61	57	7.0 %
Total Corporate Platforms	\$	168 \$	146	15.1 %

	As of or Three Months Ended March 31,		
	2022		2021
<u>IPOs</u>			
The Nasdaq Stock Market	70		275
Exchanges that comprise Nasdaq Nordic and Nasdaq Baltic	13		24
<u>Total new listings</u>			
The Nasdaq Stock Market	110		319
Exchanges that comprise Nasdaq Nordic and Nasdaq Baltic	19		32
Number of listed companies			
The Nasdaq Stock Market	4,242		3,667
Exchanges that comprise Nasdaq Nordic and Nasdaq Baltic	1,244		1,090
ARR (in millions)	\$ 576	\$	487
Quarterly annualized SaaS revenues (in millions)	\$ 148	\$	140

In the table above:

- The Nasdaq Stock Market new listings include IPOs, including issuers that switched from other listing venues and separately listed ETPs. For the three months ended March 31, 2022 and 2021, IPOs included 43 and 196 SPACs, respectively.
- Exchanges that comprise Nasdaq Nordic and Nasdaq Baltic new listings include IPOs and represent companies listed on the Nasdaq Nordic and Nasdaq Baltic exchanges and companies on the alternative markets of Nasdaq First North.
- Number of total listed companies on The Nasdaq Stock Market for the three months ended March 31, 2022 and 2021 included 447 and 410 ETPs, respectively.
- Number of total listed companies on the exchanges that comprise Nasdaq Nordic and Nasdaq Baltic represents companies listed on these exchanges and companies on the alternative markets of Nasdaq First North.

Listing Services Revenues

Listing services revenues increased in 2022 compared with the same period in 2021 primarily due to an increase in the overall number of listed companies.

IR & ESG Services Revenues

IR & ESG Services revenues increased in 2022 compared with the same period in 2021 primarily due to increased sales and higher retention rates. Growth in revenues reflect higher adoption across the breadth of investor relations and newer ESG advisory and reporting offerings as well as an increase in the number of corporate issuer clients.

MARKET SERVICES

Equity Derivative Trading and Clearing Revenues

The following tables present total revenues, transaction-based expenses, and total revenues less transaction-based expenses as well as key drivers from our Equity Derivative Trading and Clearing business:

	1	Three Months Ended M	Percentage		
		2022	2021	Change	
		(in millions)			
Equity Derivative Trading and Clearing Revenues	\$	351 \$	422	(16.8)%	
Transaction-based expenses:					
Transaction rebates		(232)	(296)	(21.6)%	
Brokerage, clearance and exchange fees		(7)	(20)	(65.0)%	
Equity derivative trading and clearing revenues less transaction-based expenses	\$	112 \$	106	5.7 %	

In the table above, brokerage, clearance and exchange fees includes Section 31 fees of \$5 million and \$17 million in the first quarter of 2022 and 2021, respectively. Section 31 fees are recorded as equity derivative trading and clearing revenues with a corresponding amount recorded in transaction-based expenses.

	Three Months Ended March 31,	
·	2022	2021
U.S. equity options		
Total industry average daily volume (in millions)	40.0	40.1
Nasdaq PHLX matched market share	11.4 %	12.9 %
The Nasdaq Options Market matched market share	8.4 %	7.9 %
Nasdaq BX Options matched market share	2.1 %	0.7 %
Nasdaq ISE Options matched market share	5.9 %	7.7 %
Nasdaq GEMX Options matched market share	2.4 %	5.9 %
Nasdaq MRX Options matched market share	1.8 %	1.4 %
Total matched market share executed on Nasdaq's exchanges	32.0 %	36.5 %
Nasdaq Nordic and Nasdaq Baltic options a	<u>nd futures</u>	
Total average daily volume of options and futures contracts	365,611	358,365

In the table above, Nasdaq Nordic and Nasdaq Baltic total average daily volume of options and futures contracts include Finnish option contracts traded on Eurex for which Nasdaq and Eurex have a revenue sharing arrangement.

Equity derivative trading and clearing revenues decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to lower U.S. matched market share executed on Nasdaq's exchanges and a lower capture rate partially offset by higher volumes. Also contributing to the decrease was lower Section 31 pass-through fee revenue.

Equity derivative trading and clearing revenues less transaction-based expenses increased in the first quarter of 2022 compared with the same period in 2021 primarily due to higher U.S. net capture rate, partially offset by lower U.S. market share.

Section 31 fees are recorded as equity derivative trading and clearing revenues with a corresponding amount recorded as brokerage, clearance and exchange fees in the Condensed Consolidated Statements of Income. In the U.S., we are assessed these fees from the SEC and pass them through to our customers in the form of incremental fees. Pass-through fees can increase or decrease due to rate changes by the SEC, our percentage of the overall industry volumes processed on our systems, and differences in actual dollar value traded. Since the amount recorded in revenues is equal to the amount recorded as brokerage, clearance and exchange fees, there is no impact on our revenues less transaction-based expenses. Section 31 fees decreased in the first quarter of 2022 compared with same period in 2021 is primarily due to lower average SEC fee rates.

Transaction rebates, in which we credit a portion of the execution charge to the market participant, decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to lower overall U.S. matched market share executed on Nasdaq's exchanges and a lower rebate capture rate.

Cash Equity Trading Revenues

The following tables present total revenues, transaction-based expenses, and total revenues less transaction-based expenses as well as key drivers and other metrics from our Cash Equity Trading business:

	Three Months Ended	Percentage	
	 2022	2021	Change
	(in millions)		
Cash Equity Trading Revenues	\$ 510 \$	617	(17.3)%
Transaction-based expenses:			
Transaction rebates	(349)	(358)	(2.5)%
Brokerage, clearance and exchange fees	(55)	(126)	(56.3)%
Cash equity trading revenues less transaction-based			
expenses	\$ 106 \$	133	(20.3)%

In the preceding table, brokerage, clearance and exchange fees includes Section 31 fees of \$48 million and \$115 million in the first quarter of 2022 and 2021, respectively. Section 31 fees are recorded as cash equity trading revenues with a corresponding amount recorded in transaction-based expenses.

	Three Months Ended March 31,		d March 31,
-	2022		2021
Total U.Slisted securities			
Total industry average daily share volume (in billions)	12.9		14.7
Matched share volume (in billions)	142.2		152.6
The Nasdaq Stock Market matched market share	16.4 %		15.7 %
Nasdaq BX matched market share	0.5 %		0.7 %
Nasdaq PSX matched market share	0.9 %		0.7 %
Total matched market share executed on Nasdaq's exchanges	17.8 %		17.1 %
Market share reported to the FINRA/Nasdaq Trade Reporting Facility	33.4 %		35.2 %
Total market share	51.2 %		52.3 %
Nasdaq Nordic and Nasdaq Baltic securities	2 <u>S</u>		
Average daily number of equity trades executed on Nasdaq's exchanges	1,133,543		1,093,684
Total average daily value of shares traded (in billions)	7.1	\$	7.0
Total market share executed on Nasdaq's exchanges	73.0 %		78.5 %

In the table above, total market shares includes transactions executed on The Nasdaq Stock Market's, Nasdaq BX's and Nasdaq PSX's systems plus trades reported through the FINRA/Nasdaq Trade Reporting Facility.

Cash equity trading revenues and cash equity trading revenues less transaction-based expenses decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to lower industry trading volumes, lower U.S. and European capture rates and lower European market share, partially offset by higher U.S. matched market share executed on Nasdaq's exchanges. The decrease in cash equity trading revenues was also due to lower Section 31 pass-through fee revenue.

Similar to equity derivative trading and clearing, in the U.S. we record Section 31 fees as cash equity trading revenues with a corresponding amount recorded as brokerage, clearance and exchange fees in the Condensed Consolidated Statements of Income. We are assessed these fees from the SEC and pass them through to our customers in the form of incremental fees. Since the amount recorded as revenues is equal to the amount recorded as brokerage, clearance and exchange fees, there is no impact on our revenues less transaction-based expenses. Section 31 fees decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to lower average SEC fee rates.

Transaction rebates decreased in the first quarter of 2022 compared with the same period in 2021. For The Nasdaq Stock Market and Nasdaq PSX, we credit a portion of the per share execution charge to the market participant that provides the liquidity, and for Nasdaq BX, we credit a portion of the per share execution charge to the market participant that takes the liquidity. The decrease was primarily due to a lower rebate capture rate and lower U.S. industry trading volumes, partially offset by higher overall U.S. matched market share executed on Nasdaq's exchanges.

FICC Revenues

The following table present revenues from our FICC business:

	TI	Percentage		
		2022	2021	Change
		(in million	is)	
FICC Revenues	\$	13 \$	16	(18.8)%

FICC revenues decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to lower commodities products revenues.

Trade Management Services Revenues

The following tables present revenues and key drivers from our Trade Management Services business:

	Three Months Ended March 31,			Percentage
		2022	2021	Change
		(in millions	s)	
Trade Management Services Revenues	\$	84 \$	79	6.3 %
		TI	ree Months End	ed March 31,
			2022	2021
			(in millio	ns)
ARR		\$	333 \$	315

Trade management services revenues increased in the first quarter of 2022 compared with the same period in 2021 primarily due to increased demand for connectivity and infrastructure services.

OTHER REVENUES

For the three months ended March 31, 2021, other revenues include the revenues associated with our U.S. Fixed Income business, which was sold in June 2021. Prior to the sale date, these revenues were included in our Market Services and Investment Intelligence segments. See "2021 Divestiture," of Note 4, "Acquisition and Divestiture," to the condensed consolidated financial statements for further discussion of this divestiture. Additionally, other revenues include revenues associated with the NPM business which we contributed in July 2021 to a standalone, independent company, of which we own the largest minority interest, together with a consortium of third party financial institutions. Prior to July 2021, these revenues were included in our Corporate Platforms segment. For the three months ended March 31, 2022 other revenues are related to a transitional services agreement associated with a divested business.

EXPENSES

Operating Expenses

The following tables present our operating expenses:

	1	Three Months End	Percentage	
		2022	2021	Change
		(in milli	ons)	
Compensation and benefits	\$	254 \$	239	6.3 %
Professional and contract services		35	27	29.6 %
Computer operations and data communications		50	44	13.6 %
Occupancy		27	28	(3.6)%
General, administrative and other		21	13	61.5 %
Marketing and advertising		10	10	— %
Depreciation and amortization		67	63	6.3 %
Regulatory		8	7	14.3 %
Merger and strategic initiatives		15	45	(66.7)%
Restructuring charges		_	10	(100.0)%
Total operating expenses	\$	487 \$	486	0.2 %

The increase in compensation and benefits expense in the first quarter of 2022 compared with the same period in 2021 was primarily driven by continued investment in new employees to drive growth, inflationary pressures and performance-linked compensation, partially offset by an unfavorable impact from foreign exchange rates.

Headcount increased to 5,987 employees as of March 31, 2022 from 5,585 as of March 31, 2021 primarily due to growth in various businesses.

Professional and contract services expense increased in the first quarter of 2022 compared with the same period in 2021 primarily due to an increase in legal fees and consulting costs.

Computer operations and data communications expense increased in the first quarter of 2022 compared with the same period in 2021 primarily due to higher hardware and software maintenance costs related to increased cloud storage costs as well as our acquisition of Verafin.

Occupancy expense remained relatively flat in the first quarter of 2022 compared with the same period in 2021.

General, administrative and other expense increased in the first quarter of 2022 compared with the same period in 2021 reflecting higher travel costs.

Depreciation and amortization expense increased in the first quarter of 2022 compared with the same period in 2021 primarily due to additional expense for acquired intangible assets related to our acquisition of Verafin.

Regulatory expense remained relatively flat in the first quarter of 2022 compared with the same period in 2021.

Merger and strategic initiatives expense decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to lower acquisition costs associated with the Verafin transaction. We have pursued various strategic initiatives and completed acquisitions and divestitures in recent years, which have resulted in expenses which would not have otherwise been incurred. These expenses generally include integration costs, as well as legal, due diligence and other third party transaction costs and will vary based on the size and frequency of the activities described above.

See Note 19, "Restructuring Charges," to the condensed consolidated financial statements for further discussion of our 2019 restructuring plan and charges associated with this plan.

Non-operating Income and Expenses

The following table presents our non-operating income and expenses:

	Т	hree Months Ended	Percentage	
	2022 202		2021	Change
		(in millions)		
Interest income	\$	— \$	1	(100.0)%
Interest expense		(32)	(29)	10.3 %
Net interest expense		(32)	(28)	14.3 %
Other (loss) income		(6)	1	(700.0)%
Net income from unconsolidated investees		7	57	(87.7)%
Total non-operating income (expenses)	\$	(31) \$	30	(203.3)%

The following table presents our interest expense:

	,	Three Months Ended M	Percentage		
		2022	2021	Change	
		(in millions)	<u>.</u>		
Interest expense on debt	\$	29 \$	26	11.5 %	
Accretion of debt issuance costs and debt discount		2	2	—%	
Other fees		1	1	— %	
Interest expense	\$	32 \$	29	10.3 %	

Interest expense increased in the first quarter of 2022 compared with the same period in 2021 primarily due to new issuances of senior notes in December 2020 and commercial paper issuances in the first quarter of 2021 to fund our acquisition of Verafin. See "2021 Acquisition," of Note 4, "Acquisition and Divestiture," to the condensed consolidated financial statements for further discussion of the acquisition of Verafin. See Note 8, "Debt Obligations," to the condensed consolidated financial statements for further discussion of our debt obligations.

Other (loss) income decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to a loss on strategic investments related to our corporate venture program.

Net income from unconsolidated investees decreased in the first quarter of 2022 compared with the same period in 2021 primarily due to a decrease in income recognized from our equity method investment in OCC. See "Equity Method Investments," of Note 6, "Investments," to the condensed consolidated financial statements for further discussion.

Tax Matters

The following table presents our income tax provision and effective tax rate:

		Three Months	D4		
	2022			2021	Percentage Change
		(\$ in	millio	ns)	
Income tax provision	\$	91	\$	97	(6.2)%
Effective tax rate		24.3 9	%	24.6 %	

For further discussion of our tax matters, see Note 16, "Income Taxes," to the condensed consolidated financial statements.

NON-GAAP FINANCIAL MEASURES

In addition to disclosing results determined in accordance with U.S. GAAP, we have also provided non-GAAP net income attributable to Nasdaq and non-GAAP diluted earnings per share. Management uses this non-GAAP information internally, along with U.S. GAAP information, in evaluating our performance and in making financial and operational decisions. We believe our presentation of these measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparisons of our ongoing operating performance.

These measures are not in accordance with, or an alternative to, U.S. GAAP, and may be different from non-GAAP measures used by other companies. In addition, other companies, including companies in our industry, may calculate such measures differently, which reduces their usefulness as comparative measures. Investors should not rely on any single financial measure when evaluating our business. This non-GAAP information should be considered as supplemental in nature and is not meant as a substitute for our operating results in accordance with U.S. GAAP. We recommend investors review the U.S. GAAP financial measures included in this Quarterly Report on Form 10-Q, including our condensed consolidated financial statements and the notes thereto. When viewed in conjunction with our U.S. GAAP results and the accompanying reconciliation, we believe these non-GAAP measures provide greater transparency and a more complete understanding of factors affecting our business than U.S. GAAP measures alone.

We understand that analysts and investors regularly rely on non-GAAP financial measures, such as non-GAAP net income attributable to Nasdaq and non-GAAP diluted earnings per share, to assess operating performance. We use non-GAAP net income attributable to Nasdaq and non-GAAP diluted earnings per share because they highlight trends more clearly in our business that may not otherwise be apparent when relying solely on U.S. GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our ongoing operating performance. Non-GAAP net income attributable to Nasdaq for the periods presented below is calculated by adjusting for the following items:

- Amortization expense of acquired intangible assets: We amortize intangible assets acquired in connection with various acquisitions. Intangible asset amortization expense can vary from period to period due to episodic acquisitions completed, rather than from our ongoing business operations. As such, if intangible asset amortization is included in performance measures, it is more difficult to assess the day-to-day operating performance of the businesses, the relative operating performance of the businesses between periods, and the earnings power of Nasdaq. Performance measures excluding intangible asset amortization expense therefore provide investors with a useful representation of our businesses' ongoing activity in each period.
- Merger and strategic initiatives expense: We have pursued various strategic initiatives and completed acquisitions and divestitures in recent years that have resulted in expenses which would not have otherwise been incurred. These expenses generally include integration costs, as well as legal, due diligence and other third party transaction costs. The frequency and the amount of such expenses vary significantly based on the size, timing and complexity of the transaction. Accordingly, we exclude these costs for purposes of calculating non-GAAP measures, which provide a more meaningful analysis of Nasdaq's ongoing operating performance or comparisons in Nasdaq's performance between periods.
- Restructuring charges: We initiated the transition of certain technology platforms to advance our strategic opportunities as a technology and analytics provider and continue the realignment of certain business areas. See Note 19, "Restructuring Charges," to the condensed consolidated financial statements for further discussion of our 2019 restructuring plan, which was completed in June 2021. Charges associated with this plan represented a fundamental shift in our strategy and technology as well as executive realignment and were excluded for purposes of calculating non-GAAP measures as they are not reflective of ongoing operating performance or comparisons in Nasdaq's performance between periods.
- Net income from unconsolidated investee: See "Equity Method Investments," of Note 6, "Investments," to the condensed consolidated financial statements for further discussion. Our income on our investment in OCC may vary significantly compared to prior periods due to the changes in OCC's capital management policy. Accordingly, we will exclude this income from current and prior periods for purposes of calculating non-GAAP measures which provide a more meaningful analysis of Nasdaq's ongoing operating performance or comparisons in Nasdaq's performance between periods.

- Other significant items: We have excluded certain other charges or gains, including certain tax items, that are the result of other noncomparable events to measure operating performance. We believe the exclusion of such amounts allows management and investors to better understand the ongoing financial results of Nasdaq.
- Significant tax items: The non-GAAP adjustment to the income tax provision for the three months ended March 31, 2022 and 2021 includes the tax impact of each non-GAAP adjustment.

The following table presents reconciliations between U.S. GAAP net income attributable to Nasdaq and diluted earnings per share and non-GAAP net income attributable to Nasdaq and diluted earnings per share:

LIQUIDITY AND CAPITAL RESOURCES

Historically, we have funded our operating activities and met our commitments through cash generated by operations, augmented by the periodic issuance of our common stock and debt. Currently, our cost and availability of funding remain healthy.

As of March 31, 2022, our sources and uses of cash were not materially impacted by COVID-19 and we have not identified any liquidity deficiencies as a result of the ongoing impact of the COVID-19 pandemic.

We will continue to closely monitor and manage our liquidity and capital resources. In addition, we continue to prudently assess our capital deployment strategy through balancing acquisitions, internal investments, debt repayments, and shareholder return activity, including share repurchases and dividends.

In the near term, we expect that our operations and the availability under our revolving credit facility and commercial paper program will provide sufficient cash to fund our operating expenses, capital expenditures, debt repayments, any share repurchases, and any dividends.

The value of various assets and liabilities, including cash and cash equivalents, receivables, accounts payable and accrued expenses, the current portion of long-term debt, and commercial paper, can fluctuate from month to month. Working capital (calculated as current assets less current liabilities) was \$(673) million as of March 31, 2022, compared with \$(449) million as of December 31, 2021, a decrease of \$224 million. The decrease was primarily due to an increase in deferred revenue, short-term debt and other current liabilities and a decrease in other current assets, partially offset by an increase in cash and cash equivalents, receivables, net and financial investments and a decrease in accrued personnel costs.

Principal factors that could affect the availability of our internallygenerated funds include:

- · deterioration of our revenues in any of our business segments;
- · changes in regulatory and working capital requirements; and
- an increase in our expenses.

Principal factors that could affect our ability to obtain cash from external sources include:

- operating covenants contained in our credit facilities that limit our total borrowing capacity;
- credit rating downgrades, which could limit our access to additional debt;
- a significant decrease in the market price of our common stock;
- · volatility or disruption in the public debt and equity markets; and
- the impact of the COVID-19 pandemic on our business.

The following table summarizes our financial assets:

	March 31, 2022 December		nber 31, 2021	
	(in millions)			
Cash and cash equivalents	\$	486	\$	393
Financial investments		225		208
Total financial assets	\$	711	\$	601

Cash and Cash Equivalents

Cash and cash equivalents includes all non-restricted cash in banks and highly liquid investments with original maturities of 90 days or less at the time of purchase. The balance retained in cash and cash equivalents is a function of anticipated or possible short-term cash needs, prevailing interest rates, our investment policy, and alternative investment choices. As of March 31, 2022, our cash and cash equivalents of \$486 million were primarily invested in bank deposits, commercial paper and money market funds. In the long-term, we may use both internally generated funds and external sources to satisfy our debt obligations and other long-term liabilities. Cash and cash equivalents as of March 31, 2022 increased \$93 million from December 31, 2021.

Repatriation of Cash

Our cash and cash equivalents held outside of the U.S. in various foreign subsidiaries totaled \$329 million as of March 31, 2022 and \$266 million as of December 31, 2021. The remaining balance held in the U.S. totaled \$157 million as of March 31, 2022 and \$127 million as of December 31, 2021.

Unremitted earnings of certain subsidiaries outside of the U.S. are used to finance our international operations and are considered to be indefinitely reinvested.

Cash Flow Analysis

The following table summarizes the changes in cash flows:

	Three Months Ended March 31,			D	
		2022	2021	Percentage Change	
Net cash provided by (used in):		(in millions)		
Operating activities	\$	605 \$	394	53.6 %	
Investing activities		(390)	(2,700)	(85.6)%	
Financing activities		368	164	124.4 %	
Effect of exchange rate changes on cash and cash equivalents and restricted cash and cash equivalents		(164)	(177)	(7.3)%	
Net increase (decrease) in cash and cash equivalents and restricted cash and cash equivalents		419	(2,319)	(118.1)%	
Cash and cash equivalents, restricted cash and cash equivalents at beginning of period		5,496	5,979	(8.1)%	
Cash and cash equivalents, restricted cash and cash equivalents at end of period	\$	5,915 \$	3,660	61.6 %	
Reconciliation of Cash, Cash Equivalents and Restricted Cash and Cash Equivalents					
Cash and cash equivalents	\$	486 \$	774	(37.2)%	
Restricted cash and cash equivalents		31	38	(18.4)%	
Restricted cash and cash equivalents (default funds and margin deposits)		5,398	2,848	89.5 %	
Total	\$	5,915 \$	3,660	61.6 %	

We have adjusted prior period presentation of opening and ending amounts of cash, cash equivalents, and restricted cash and cash equivalents in our condensed consolidated statements of cash flows to include restricted cash and cash equivalents related to the default funds and margin deposits. See Note 2, "Summary of Significant Accounting Policies," to the condensed consolidated financial statements for further discussion of this adjustment.

Net Cash Provided by Operating Activities

Net cash provided by operating activities primarily consists of net income adjusted for certain non-cash items such as: depreciation and amortization expense of property and equipment; amortization expense of acquired finite-lived intangible assets; expense associated with share-based compensation; deferred income taxes; and net income from unconsolidated investees.

Net cash provided by operating activities is also impacted by the effects of changes in operating assets and liabilities such as: accounts receivable and deferred revenue which are impacted by the timing of customer billings and related collections from our customers; accounts payable and accrued expenses due to timing of payments; accrued personnel costs, which are impacted by employee performance targets and the timing of payments related to employee bonus incentives; and Section 31 fees payable to the SEC, which is impacted by the timing of collections from customers and payments to the SEC.

Net cash provided by operating activities increased \$211 million for the three months ended March 31, 2022 compared with 2021. The increase was primarily driven by a decrease in Section 31 fees payable to SEC due to a decrease in the SEC fee rates in 2021 and higher annual customer billings. The remaining change was primarily due to other fluctuations in our working capital.

Net Cash Used in Investing Activities

Net cash used in investing activities for the three months ended March 31, 2022 primarily related to net purchases of investments related to default funds and margin deposits of \$372 million, purchases of property and equipment of \$35 million and net purchases of securities of \$26 million, partially offset by proceeds of \$43 million from other investing activities.

Net cash used in investing activities for the three months ended March 31, 2021 primarily related to \$2,430 million of cash used for acquisitions, net of cash and cash equivalents acquired of \$221 million which was utilized to satisfy an acquisition-related tax obligation on behalf of Verafin, net purchases of investments related to default funds and margin deposits of \$195 million, \$42 million of purchases of property and equipment and \$32 million of net purchases of securities.

Net Cash Provided by Financing Activities

Net cash provided by financing activities for the three months ended March 31, 2022 primarily related to a net increase in default funds and margin deposits of \$856 million, proceeds of \$541 million from the issuances of long-term-debt, partially offset by \$420 million repayment of borrowings under our commercial paper program, net, \$325 million of repurchases of common stock pursuant to the ASR agreement, \$142 million in other repurchases of common stock and \$89 million of dividend payments to our shareholders.

Net cash provided by financing activities for the three months ended March 31, 2021 primarily related to \$435 million of proceeds from issuances of commercial paper, net and an increase in default funds and margin deposits of \$12 million, partially offset by \$162 million in repurchases of common stock and \$81 million of dividend payments to our shareholders.

See Note 4, "Acquisition and Divestiture," to the condensed consolidated financial statements for further discussion of our acquisitions and divestiture.

See Note 8, "Debt Obligations," to the condensed consolidated financial statements for further discussion of our debt obligations.

See "ASR Agreement," "Share Repurchase Program," and "Cash Dividends on Common Stock," of Note 11, "Nasdaq Stockholders' Equity," to the condensed consolidated financial statements for further discussion of our ASR agreement, share repurchase program and cash dividends paid on our common stock.

Financial Investments

Our financial investments totaled \$225 million as of March 31, 2022 and \$208 million as of December 31, 2021. Of these securities, \$155 million as of March 31, 2022 and \$162 million as of December 31, 2021 are assets primarily utilized to meet regulatory capital requirements, mainly for our clearing operations at Nasdaq Clearing. See Note 6, "Investments," to the condensed consolidated financial statements for further discussion.

Regulatory Capital Requirements

Clearing Operations Regulatory Capital Requirements

We are required to maintain minimum levels of regulatory capital for the clearing operations of Nasdaq Clearing. The level of regulatory capital required to be maintained is dependent upon many factors, including market conditions and creditworthiness of the counterparty. As of March 31, 2022, our required regulatory capital of \$132 million was comprised of highly rated European government debt securities that are included in financial investments in the Condensed Consolidated Balance Sheets.

Broker-Dealer Net Capital Requirements

Our broker-dealer subsidiaries, Nasdaq Execution Services, NFSTX, LLC, and Nasdaq Capital Markets Advisory, are subject to regulatory requirements intended to ensure their general financial soundness and liquidity. These requirements obligate these subsidiaries to comply with minimum net capital requirements. As of March 31, 2022, the combined required minimum net capital totaled \$1 million and the combined excess capital totaled \$16 million, substantially all of which is held in cash and cash equivalents in the Condensed Consolidated Balance Sheets. The required minimum net capital is included in restricted cash and cash equivalents in the Condensed Consolidated Balance Sheets.

Nordic and Baltic Exchange Regulatory Capital Requirements

The entities that operate trading venues in the Nordic and Baltic countries are each subject to local regulations and are required to maintain regulatory capital intended to ensure their general financial soundness and liquidity. As of March 31, 2022, our required regulatory capital of \$35 million was primarily invested in European government debt securities, European mortgage bonds and Icelandic government bonds that are included in financial investments in the Condensed Consolidated Balance Sheets and cash, which is included in restricted cash and cash equivalents in the Condensed Consolidated Balance Sheets.

Other Capital Requirements

We operate several other businesses, which are subject to local regulation and are required to maintain certain levels of regulatory capital. As of March 31, 2022, other required regulatory capital of \$10 million was primarily related to Nasdaq Central Securities Depository and is included in restricted cash in the Condensed Consolidated Balance Sheets.

Equity and dividends

Share Repurchase Program

See "Share Repurchase Program," of Note 11, "Nasdaq Stockholders' Equity," to the condensed consolidated financial statements for further discussion of our share repurchase program.

ASR Agreement

See "ASR Agreement," of Note 11, "Nasdaq Stockholders' Equity," to the condensed consolidated financial statements for further discussion of our ASR agreement.

Cash Dividends on Common Stock

See "Cash Dividends on Common Stock," of Note 11, "Nasdaq Stockholders' Equity," to the condensed consolidated financial statements for further discussion of the dividends.

Debt Obligations

The following table summarizes our debt obligations by contractual maturity:

_	Maturity Date	Ma	rch 31, 2022	I	December 31, 2021
			(in mil	llions	3)
Short-term debt - commercial paper		\$	_	\$	420
2022 Notes	December 2022		599		598
2024 Notes	June 2024		499		499
Total short-term debt		\$	1,098	\$	1,517
Long-term debt - senior unsecured notes:					
2020 Credit Facility	December 2025		(3)		(4)
2026 Notes	June 2026		498		498
2029 Notes	March 2029		658		676
2030 Notes	February 2030		658		676
2031 Notes	January 2031		643		643
2033 Notes	July 2033		675		694
2040 Notes	December 2040		644		644
2050 Notes	April 2050		486		486
2052 Notes	March 2052		541		
Total long-term debt		\$	4,800	\$	4,313
Total debt obligations		\$	5,898	\$	5,830

In the table above, the 2024 Notes were reclassified to short-term debt as of March 31, 2022, and were repaid in April 2022.

In addition to the \$1.25 billion revolving credit facility, we also have other credit facilities primarily to support our Nasdaq Clearing operations in Europe, as well as to provide a cash pool credit line for one subsidiary. These credit facilities, which are available in multiple currencies, totaled \$204 million as of March 31, 2022 and \$212 million as of December 31, 2021 in available liquidity, none of which was utilized.

As of March 31, 2022, we were in compliance with the covenants of all of our debt obligations.

See Note 8, "Debt Obligations," to the condensed consolidated financial statements for further discussion of our debt obligations.

Contractual Obligations and Contingent Commitments

There were no significant changes to our contractual obligations and contingent commitments from those disclosed in "Part I. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report Form 10-K that was filed with the SEC February 23, 2022.

Off-Balance Sheet Arrangements

For discussion of off-balance sheet arrangements see:

- Note 14, "Clearing Operations," to the condensed consolidated financial statements for further discussion of our non-cash default fund contributions and margin deposits received for clearing operations; and
- Note 17, "Commitments, Contingencies and Guarantees," to the condensed consolidated financial statements for further discussion of:
 - Guarantees issued and credit facilities available:
 - · Other guarantees;
 - Routing brokerage activities;
 - · Legal and regulatory matters; and
 - · Tax audits.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a result of our operating, investing and financing activities, we are exposed to market risks such as interest rate risk and foreign currency exchange rate risk. We are also exposed to credit risk as a result of our normal business activities.

We have implemented policies and procedures to measure, manage, monitor and report risk exposures, which are reviewed regularly by management and the board of directors. We identify risk exposures and monitor and manage such risks on a daily basis.

We perform sensitivity analyses to determine the effects of market risk exposures. We may use derivative instruments solely to hedge financial risks related to our financial positions or risks that are incurred during the normal course of business. We do not use derivative instruments for speculative purposes.

Interest Rate Risk

We are subject to the risk of fluctuating interest rates in the normal course of business. Our exposure to market risk for changes in interest rates relates primarily to our financial investments and debt obligations, which are discussed below.

Financial Investments

As of March 31, 2022, our investment portfolio was primarily comprised of highly rated European government debt securities, which pay a fixed rate of interest. These securities are subject to interest rate risk and the fair value of these securities will decrease if market interest rates increase. If market interest rates were to increase immediately and uniformly by a hypothetical 100 basis points from levels as of March 31, 2022, the fair value of this portfolio would have declined by \$5 million.

Debt Obligations

As of March 31, 2022, the majority of our debt obligations were fixed-rate obligations. Interest rates on certain tranches of notes are subject to adjustment to the extent our debt rating is downgraded below investment grade, as further discussed in Note 8, "Debt Obligations," to the condensed consolidated financial statements. While changes in interest rates will have no impact on the interest we pay on fixed-rate obligations, we are exposed to changes in interest rates as a result of the borrowings under our 2020 Credit Facility, as this facility has a variable interest rate. We are also exposed to changes in interest rates as a result of the amounts outstanding from the sale of commercial paper under our commercial paper program, which have variable interest rates. As of March 31, 2022, there were no outstanding borrowings under our 2020 Credit Facility or commercial paper program.

We may utilize interest rate swap agreements to achieve a desired mix of variable and fixed rate debt.

Foreign Currency Exchange Rate Risk

We are subject to foreign currency exchange rate risk. Our primary transactional exposure to foreign currency denominated revenues less transaction-based expenses and operating income for the three months ended March 31, 2022 is presented in the following tables:

Euro	Swedish Krona	Other Foreign Currencies	U.S. Dollar	Total	
(in millions, except currency rate)					
Ended Mar	ch 31, 2022				
1.122	0.107	#	N/A	N/A	
6.3 %	6.1 %	4.5 %	83.1 %	100.0 %	
9.5 %	(1.8)%	(10.2)%	102.5 %	100.0 %	
\$ (6)	\$ (5)	\$ (4)	\$ —	\$ (15)	
\$ (4)	\$ (1)	\$ (4)	s —	\$ (9)	
	1.122 6.3 % 9.5 %	(in m (in m Ended March 31, 2022) 1.122	(in millions, except cur Ended March 31, 2022 1.122	(in millions, except currency rate) Ended March 31, 2022 1.122	

[#] Represents multiple foreign currency rates.

Our investments in foreign subsidiaries are exposed to volatility in currency exchange rates through translation of the foreign subsidiaries' net assets or equity to U.S. dollars. Substantially all of our foreign subsidiaries operate in functional currencies other than the U.S. dollar. The financial statements of these subsidiaries are translated into U.S. dollars for consolidated reporting using a current rate of exchange, with net gains or losses recorded in accumulated other comprehensive loss within stockholders' equity in the Condensed Consolidated Balance Sheets.

Our primary exposure to net assets in foreign currencies as of March 31, 2022 is presented in the following table:

	 Net Assets		of a 10% Adverse ncy Fluctuation
	(in m	illions)	
Swedish Krona	\$ 3,301	\$	330
British Pound	177		18
Norwegian Krone	165		16
Canadian Dollar	120		12
Australian Dollar	125		13
Euro	49		5

In the table above, Swedish Krona includes goodwill of \$2,390 million and intangible assets, net of \$563 million.

Credit Risk

Credit risk is the potential loss due to the default or deterioration in credit quality of customers or counterparties. We are exposed to credit risk from third parties, including customers, counterparties and clearing agents. These parties may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure or other reasons. We limit our exposure to credit risk by evaluating the counterparties with which we make investments and execute agreements. For our investment portfolio, our objective is to invest in securities to preserve principal while maximizing yields, without significantly increasing risk. Credit risk associated with investments is minimized substantially by ensuring that these financial assets are placed with governments which have investment grade ratings, well-capitalized financial institutions and other creditworthy counterparties.

Our subsidiary, Nasdaq Execution Services, may be exposed to credit risk due to the default of trading counterparties in connection with the routing services it provides for our trading customers. System trades in cash equities routed to other market centers for members of our cash equity exchanges are routed by Nasdaq Execution Services for clearing to the NSCC. In this function, Nasdaq Execution Services is to be neutral by the end of the trading day, but may be exposed to intraday risk if a trade extends beyond the trading day and into the next day, thereby leaving Nasdaq Execution Services susceptible to counterparty risk in the period between accepting the trade and routing it to the clearinghouse. In this interim period, Nasdaq Execution Services is not novating like a clearing broker but instead is subject to the short-term risk of counterparty failure before the clearinghouse enters the transaction. Once the clearinghouse officially accepts the trade for novation, Nasdaq Execution Services is legally removed from trade execution risk. However, Nasdaq has membership obligations to NSCC independent of Nasdaq Execution Services' arrangements.

Pursuant to the rules of the NSCC and Nasdaq Execution Services' clearing agreement, Nasdaq Execution Services is liable for any losses incurred due to a counterparty or a clearing agent's failure to satisfy its contractual obligations,

N/A Not applicable.

either by making payment or delivering securities. Adverse movements in the prices of securities that are subject to these transactions can increase our credit risk. However, we believe that the risk of material loss is limited, as Nasdaq Execution Services' customers are not permitted to trade on margin and NSCC rules limit counterparty risk on self-cleared transactions by establishing credit limits and capital deposit requirements for all brokers that clear with NSCC. Historically, Nasdaq Execution Services has never incurred a liability due to a customer's failure to satisfy its contractual obligations as counterparty to a system trade. Credit difficulties or insolvency, or the perceived possibility of credit difficulties or insolvency, of one or more larger or visible market participants could also result in market-wide credit difficulties or other market disruptions.

We have credit risk related to transaction and subscription-based revenues that are billed to customers on a monthly or quarterly basis, in arrears. Our potential exposure to credit losses on these transactions is represented by the receivable balances in our Condensed Consolidated Balance Sheets. We review and evaluate changes in the status of our counterparties' creditworthiness. Credit losses such as those described above could adversely affect our condensed consolidated financial position and results of operations.

We also are exposed to credit risk through our clearing operations with Nasdaq Clearing. See Note 14, "Clearing Operations," to the condensed consolidated financial statements for further discussion. Our clearinghouse holds material amounts of clearing member cash deposits, which are held or invested primarily to provide security of capital while minimizing credit, market and liquidity risks. While we seek to achieve a reasonable rate of return, we are primarily concerned with preservation of capital and managing the risks associated with these deposits. As the clearinghouse may pass on interest revenues (minus costs) to the members, this could include negative or reduced yield due to market conditions. The following is a summary of the risks associated with these deposits and how these risks are mitigated.

Credit Risk. When the clearinghouse has the ability to hold cash
collateral at a central bank, the clearinghouse utilizes its access to the
central bank system to minimize credit risk exposures. When funds are
not held at a central bank, we seek to substantially mitigate credit risk by
ensuring that investments are primarily placed in large, highly rated
financial institutions, highly rated government debt instruments and
other creditworthy counterparties.

- Liquidity Risk. Liquidity risk is the risk a clearinghouse may not be able to meet its payment obligations in the right currency, in the right place and the right time. To mitigate this risk, the clearinghouse monitors liquidity requirements closely and maintains funds and assets in a manner which minimizes the risk of loss or delay in the access by the clearinghouse to such funds and assets. For example, holding funds with a central bank where possible or investing in highly liquid government debt instruments serves to reduce liquidity risks.
- Interest Rate Risk. Interest rate risk is the risk that interest rates rise causing the value of purchased securities to decline. If we were required to sell securities prior to maturity, and interest rates had risen, the sale of the securities might be made at a loss relative to the latest market price. Our clearinghouse seeks to manage this risk by making short term investments of members' cash deposits. In addition, the clearinghouse investment guidelines allow for direct purchases or repurchase agreements with short dated maturities of high quality sovereign debt (for example, European government and U.S. Treasury securities), central bank certificates and multilateral development bank debt instruments.
- Security Issuer Risk. Security issuer risk is the risk that an issuer of a
 security defaults on its payment when the security matures. This risk is
 mitigated by limiting allowable investments and collateral under reverse
 repurchase agreements to high quality sovereign, government agency or
 multilateral development bank debt instruments.

Item 4. Controls and Procedures

Disclosure controls and procedures. Nasdaq's management, with the participation of Nasdaq's President and Chief Executive Officer, and Executive Vice President and Chief Financial Officer, has evaluated the effectiveness of Nasdaq's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, Nasdaq's President and Chief Executive Officer and Executive Vice President and Chief Financial Officer, have concluded that, as of the end of such period, Nasdaq's disclosure controls and procedures are effective.

Changes in internal control over financial reporting. There have been no changes in Nasdaq's internal control over financial reporting (as defined in Rule 13a-15(f) and Rule 15d-15(f) under the Exchange Act) that occurred during the quarter ended March 31, 2022 that have materially affected, or are reasonably likely to materially affect, Nasdaq's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See "Legal and Regulatory Matters - Litigation," of Note 17, "Commitments, Contingencies and Guarantees," to the condensed consolidated financial statements, which is incorporated herein by reference.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed under "Risk Factors" in our most recent Form 10-K. These risks could materially and adversely affect our business, financial condition and results of operations. The risks and uncertainties in this Form 10-Q and our most recent Form 10-K are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business.

Our businesses operate in various international markets, including certain emerging markets that are subject to greater political, economic and social uncertainties than developed countries, as well as in regions facing war and related instability.

Our businesses operate in various international markets, including but not limited to Northern Europe, the Baltics, the Middle East, Africa, Eastern Europe and Asia, and our non-U.S. operations are subject to the risk inherent in the international environment. Political, economic or social events or developments in one or more of our non-U.S. locations could adversely affect our operations and financial results. Certain emerging markets in which we operate may be subject to greater political, economic and social uncertainties than developed countries, which may increase our operational risk.

We are also monitoring the effects of Russia's recent invasion of Ukraine. While we do not expect such conflict will itself be material to Nasdaq, geopolitical instability arising from such conflict, the imposition of sanctions, taxes and/or tariffs against Russia and Russia's response to such sanctions (including retaliatory acts) could adversely affect the global economic or specific international, regional and domestic markets, which could adversely impact our business and our ability to engage with, and collect payment from, customers in Russia or their affiliates. Additionally, we operate internationally and to the extent future sanctions, laws, regulations or orders imposed by the United States, the European Union, the United Kingdom and other countries in response to the conflict differ between jurisdictions, it could create regulatory uncertainty for our business

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds Issuer Purchases of Equity Securities

Share Repurchase Program

See "Share Repurchase Program," of Note 11, "Nasdaq Stockholders' Equity," to the condensed consolidated financial statements for further discussion of our share repurchase program.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The table below represents repurchases made by or on behalf of us or any "affiliated purchaser" of our common stock during the fiscal quarter ended March 31, 2022:

Period	(a) Total Number of Shares Purchased		b) Average ice Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Doll St M P U Pro	Maximum lar Value of nares that ay Yet Be urchased inder the Plans or ograms (in millions)

CERTIFICATION

- I, Adena T. Friedman, certify that:
 - 1. I have reviewed this Quarterly Report on Form 10-Q of Nasdaq, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Certification of CEO and CFO Pursuant to 18 U.S.C. Section 1350 as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Quarterly Report on Form 10-Q of Nasdaq, Inc. (the "Company") for the period ended March 31, 2022 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Adena T. Friedman, as President and Chief Executive Officer of the Company, and Ann M. Dennison, as Executive Vice President and Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that, to the best of her knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of the operations of the Company.
